The ARS seeks accurate mailing and physical location addresses of establishments as well as geographic codes such as county and township (independent city, parish, or island in some States).

The ARS constitutes an information collection within the meaning of the PRA. Under the PRA, a Federal agency generally cannot conduct or sponsor a collection of information unless it is currently approved by the OMB under the PRA and displays a currently valid OMB control number. Furthermore, the public is generally not required to respond to a collection of information unless it displays a currently valid OMB control number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a currently valid OMB control number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1220-0032. The current OMB approval is scheduled to expire on October 31, 2010. - Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
