General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) This exemption is supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of this exemption is subject to the express condition that the material facts and representations contained in the application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 1st day of October 2010.

Employee Benefits Security Administration,

SUPPLEMENTARY INFORMATION:

I. Abstract

NASA Johnson Space Center (JSC) regularly employs cooperative (Co-op) and Intern employees. This information is collected from public citizens (landlords) in and around the JSC area, who may have rooms, residences, or apartments available for rent by the co-ops and interns. Contact information for these landlords is compiled and made available to co-ops and interns who are travelling into the JSC area from distant Texas cities or from out-of-state. Access to this information, prior to co-op and intern arrival, would facilitate advance housing arrangements, and ease the burden of securing housing after arrival.

II. Method of Collection

NASA does not prescribe a format for submission, though encourages the use of computer technology for submission.

SUPPLEMENTARY INFORMATION:

Title of Collection: Quantitative Evaluation of the ADVANCE Program.
OMB Control No.: 3145-0209.

Abstract

Abstract: The ADVANCE Program was established by the National Science Foundation in 2001 to address the underrepresentation and inadequate advancement of women on STEM (Science, Technology, Engineering, and Mathematics) faculties at postsecondary institutions. The evaluation being conducted by the Urban Institute focuses on the implementation of ADVANCE projects at institutions throughout the nation. The three major funding components—institutional transformation, leadership, and partnership awards—as well as all cohorts funded that completed their funding cycles will be included. The study will rely on a thorough review of project documents, telephone interviews with all grantees, and detailed case studies at selected sites. The goal of the evaluation will be to identify models of implementation and, depending on outcomes by model, conduct case studies at selected institutions to understand how ADVANCE models operate and may be effective in differing settings.

Respondents: Faculty and staff at institutions of higher education awarded an ADVANCE grant from NSF.

Estimated Number of Annual Respondents: 151 (total).
