

bidder has the option of removing any bid placed in that round. By removing selected bids in the FCC Auction System, a bidder may effectively undo any bid placed within that round. In contrast to the bid withdrawal provisions a bidder removing a bid placed in the same round is not subject to a withdrawal payment. Once a round closes, a bidder may no longer remove a bid.

37. The Bureaus also seek comment on whether bid withdrawals should be permitted in Auction 90. When permitted in an auction, bid withdrawals provide a bidder with the option of withdrawing bids placed in prior rounds that have become provisionally winning bids. A bidder may withdraw its provisionally winning bids using the withdraw bids function in the FCC Auction System. A bidder that withdraws its provisionally winning bid(s), if permitted, is subject to the bid withdrawal payment provisions of the Commission rules.

38. For Auction 91 the Bureaus propose to prohibit bidders from withdrawing any bids after the round in which bids were placed has closed. This proposal is made in recognition of the site-specific nature and wide geographic dispersion of the permits available in this auction which suggests that potential applicants for this auction may have fewer incentives to aggregate permits through the auction process (as compared with bidders in many auctions of wireless licenses). The Bureaus are also mindful that bid withdrawals, particularly those made late in this auction, could result in delays in licensing new FM stations and attendant delays in the offering of new broadcast service to the public. The Bureaus seek comment on this approach.

C. Post-Auction Payments

i. Interim Withdrawal Payment Percentage

39. In the event that the Bureaus allow bid withdrawals in Auction 91, the Bureaus propose that the interim bid withdrawal payment be 20 percent of the withdrawn bid. A bidder that withdraws a bid during an auction is subject to a withdrawal payment equal to the difference between the amount of the withdrawn bid and the amount of the winning bid in the same or a subsequent auction. If a construction permit for which a bid has been withdrawn does not receive a subsequent higher bid or winning bid in the same auction, the final withdrawal payment cannot be calculated until a corresponding construction permit

receives a higher bid or winning bid in a subsequent auction. When that final payment cannot yet be calculated, the bidder responsible for the withdrawn bid is assessed an interim bid withdrawal payment, which will be applied toward any final bid withdrawal payment that is ultimately assessed.

40. The amount of the interim bid withdrawal payment may range from three percent to 20 percent of the withdrawn bid amount, with the percentage generally being higher where there is greater risk of bid withdrawals being used for anti-competitive purposes, such as when there is little need for bidders to aggregate permits. The Bureaus therefore believe that the maximum interim bid withdrawal payment percentage allowed by 47 CFR 1.2104(g)(1) is justified, in the event bid withdrawals are allowed. Commenters advocating the use of bid withdrawals should also address the percentage of the interim bid withdrawal payment.

ii. Additional Default Payment Percentage

41. Any winning bidder that defaults or is disqualified after the close of an auction (*i.e.*, fails to remit the required down payment within the prescribed period of time, fails to submit a timely long-form application, fails to make full payment, or is otherwise disqualified) is liable for a default payment under 47 CFR 1.2104(g)(2). This payment consists of a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a construction permit covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less.

42. The Commission's rules provide that, in advance of each auction, a percentage shall be established between three percent and twenty percent of the applicable bid to be assessed as an additional default payment. As the Commission has indicated, the level of this payment in each case will be based on the nature of the service and the construction permits being offered.

43. For Auction 91, the Bureaus propose to establish an additional default payment of twenty percent. As previously noted by the Commission, defaults weaken the integrity of the auction process and may impede the deployment of service to the public, and an additional default payment of more than the previous three percent will be more effective in deterring defaults. In light of these considerations for Auction 91, the Bureaus propose an additional

default payment of twenty percent of the relevant bid. The Bureaus seek comment on this proposal.

V. Deadlines and Filing Procedures

44. Comments are due on or before October 13, 2010, and reply comments are due on or before October 27, 2010. All filings related to procedures for Auction 91 must refer to AU Docket No. 10-183. Comments may be submitted using the Commission's Electronic Comment Filing System or by filing paper copies. The Bureaus strongly encourage interested parties to file comments electronically.

45. This proceeding has been designated as a permit-but-disclose proceeding in accordance with the Commission's *ex parte* rules. Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written *ex parte* presentations in permit-but-disclose proceedings are set forth in 47 CFR 1.1206(b).
