

English.<sup>8</sup> Staff therefore projects that approximately 6.5 percent of used car sales will be conducted in Spanish. Dealers will incur the additional burden of completing and displaying a second Buyers Guide in 6.5 percent of sales assuming that dealers choose to comply with the Rule by posting both English and Spanish Buyers Guides. The annual burden hours associated with completing and posting Buyers Guides is 1,737,638 hours (1,022,140 hours for entering data on Buyers Guides plus 715,498 hours for displaying Buyers Guides). Therefore, staff estimates that the additional burden caused by the Rule's requirement that dealers display Spanish language Buyers Guides when conducting sales in Spanish is 112,947 hours (1,737,638 hours × 6.5%). The other components of the annual hours burden, i.e., purchasing Buyers Guides and revising them for changes in warranty coverage, remain unchanged.

*Estimated annual cost burden:*

\$26,301,525 in labor costs and \$4,906,275 in non-labor costs

1. *Labor costs:* Labor costs are derived by applying appropriate hourly cost figures to the burden hours described above. Staff has determined that all of the tasks associated with ordering forms, entering data on Buyers Guides, posting Buyers Guides on vehicles, and revising them as needed, including the corresponding tasks associated with Spanish Buyers Guides, are typically done by clerical or low-level administrative personnel. Using a clerical cost rate of \$13.32 per hour<sup>9</sup> and an estimated burden of 1,974,589 hours for disclosure requirements, the total labor cost burden would be approximately \$26,301,525.

2. *Capital or other non-labor costs:* Although the cost of Buyers Guides can vary considerably, based on industry input staff estimates that the average cost of each Buyers Guide is twenty cents. The estimated cost of Buyers Guides for the 24,531,374 used cars sold by dealers in 2009 is approximately \$4,906,275. In making this estimate, staff conservatively assumes that all

dealers will purchase preprinted forms instead of producing them internally, although dealers may produce them at minimal expense using current office automation technology. Capital and start-up costs associated with the Rule are minimal.
