SUPPLEMENTARY INFORMATION: To qualify under the program, Subtitle C of Title I of the Trade Act of 2002 (Pub. L. 107–210) states that petitions must demonstrate, using data for the most recent, full marketing year or full official marketing season, a greater than 15-percent decline in at least one of the following factors: national average price, quantity of production, value of production, or cash receipts.

According to the statute, it is also necessary for the petitions to demonstrate that an increase in imports of like or directly competitive articles, during the same marketing period, contributed importantly to the decrease in one of the above factors for the agricultural commodity.

All petitions were analyzed by USDA’s Economic Research Service and reviewed by the TAA for Farmers Program Review Committee, comprised of representatives from USDA’s Office of the Chief Economist, Farm Service Agency, Agricultural Marketing Service, and FAS. After a review, the Administrator determined that the petition was unable to demonstrate the “greater than 15-percent decline” criterion, because it showed a 4.2-percent increase in the average annual price for 2009, when compared to the previous 3-year period. Additionally, the import data provided for the same time period showed a 15.7-percent decrease, instead of the required increase, under the program.

Because the petition was unable to meet the “greater than 15-percent decline” criterion and the “increase in imports” criterion, the Administrator was not able to certify the petition, making Tilapia producers in Arkansas ineligible for trade adjustment assistance in FY 2011.

This safeguard mechanism applies when, as a result of the elimination of a customs duty under the Agreement, a Peruvian textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article. In these circumstances, Article 3.1 permits the United States to increase duties on the imported article from Peru to a level that does not exceed the lesser of the prevailing U.S. normal trade relations (NTR)/most-favored-nation (MFN) duty
