Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Generic Clearance for Data User Evaluation Surveys.

Form Number(s): Various.

OMB Control Number: 0607–0760.

Type of Request: Extension of a currently approved collection.

Burden Hours: 30,000.

Number of Respondents: 360,000.

Average Hours per Response: Varies by survey.

Needs and Uses: The U.S. Census Bureau plans to extend for an additional three years its generic clearance to conduct customer/product-based research. This extension will allow us to continue to use customer satisfaction surveys, personal interviews, or focus group research to effectively improve and make more customer-oriented programs, products, and services. Extended clearance for data collections would continue to cover customer/product-based research for any Census Bureau program area that needs to measure customer needs, uses, and preferences for statistical information and services. The customer base includes, but is not limited to previous, existing, and potential businesses and organizations, alternate Census Bureau data disseminators like State Data Centers, Business and Industry Data Centers, Census Information Centers, Federal or Census Depository Libraries, educational institutions, and not-for-profit or other organizations.

Information collected from customer research helps the Census Bureau to measure its customer base—their use, satisfaction, and preferences for existing and future programs, products, and services.

Proposals for specific collections under this generic clearance are submitted to the Office of Management and Budget (OMB) for review a minimum of two weeks prior to their planned start date. A year-end report is submitted annually to OMB summarizing activity under the clearance for the preceding year.

Affected Public: Various.

Patent and Trademark Office

Submission for OMB Review; Comment Request

The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Form Number(s): None.

Agency Approval Number: 0651–0052.

Type of Request: Extension of a currently approved collection.

Burden: 140 hours annually.

Number of Respondents: 400 responses per year, with an estimated 267 responses filed electronically.

Avg. Hours per Response: The USPTO estimates that it will take the public 30 minutes (0.50 hours) to complete the surveys, with the exception of the surveys for the independent inventors, which are estimated to take 15 minutes (0.25 hours) to complete. This includes the time to gather the necessary information, respond to the surveys, and submit them to the USPTO. The USPTO estimates that it will take the same amount of time to respond to the surveys, whether they are completed online or mailed to the USPTO.

Needs and Uses: The USPTO developed the United States Patent Applicant Survey as part of a continuing effort to better predict the future growth of patent application filings by understanding applicant intentions. The main purpose of this survey is to determine the number of application filings that the USPTO can expect to receive over the next three years from patent-generating entities, ranging from
large domestic corporations to independent inventors. The USPTO also uses this survey in response to the Senate Appropriations Report 106–404 (September 8, 2000), which directed the USPTO to “develop a workload forecast with advice from a representative sample of industry and the inventor community. There are two versions of the survey: one for large domestic corporations and small and medium-sized businesses and one for universities, non-profit research organizations, and independent inventors. The large domestic corporations, small and medium-sized businesses, universities, non-profit research organizations, and independent inventors responding to these surveys will provide the USPTO with the number of application filings that they plan to submit, in addition to providing general feedback concerning industry trends and the survey itself. The USPTO will use this feedback to anticipate demand and estimate future revenue flow more reliably; to identify input and output triggers and allocate resources to meet and understand customer needs; and to reassess output and capacity goals and realign organization quality control measures with applicant by division.

Affected Public: Businesses or other for-profits and not-for-profit institutions.

Frequency: On occasion.

Respondent’s Obligation: Voluntary.

In addition, the information collected will be used to strengthen and improve fishery management decision-making, satisfy legal mandates under Executive Order 12866, the Magnuson-Stevens Fishery Conservation and Management Act (U.S.C. 1801 et seq.), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act, and other pertinent statutes.
