ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Implementation Plans—Maricopa County (Phoenix) PM–10

Nonattainment Area; Serious Area Plan for Attainment of the 24-Hour PM–10 Standard; Clean Air Act Section 189(d) AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of comment period.

SUMMARY: On September 9, 2010 (75 FR 54806), EPA published a proposed rule proposing to approve in part and disapprove in part State implementation plan (SIP) revisions submitted by the State of Arizona to meet, among other requirements, section 189(d) of the Clean Air Act (CAA) for the serious Maricopa County (Phoenix) nonattainment area (Maricopa area). Specifically, EPA proposed to disapprove provisions of the 189(d) plan because they do not meet applicable CAA requirements for emissions inventories as well as for attainment, five percent annual emission reductions, reasonable further progress and milestones, and contingency measures. EPA also proposed to disapprove the 2010 motor vehicle emission budget in the 189(d) plan as not meeting the requirements of CAA section 176(c) and 40 CFR 93.118(e)(4). EPA also proposed a limited approval and limited disapproval of State regulations for the control of PM–10 from agricultural sources. Finally, EPA proposed to approve various provisions of State statutes relating to the control of PM–10 emissions in the Maricopa area.

EPA is extending the comment period on the proposed rule from October 12, 2010 to October 20, 2010.

DATES: Any comments must arrive by October 20, 2010.

40 CFR Part 300

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Denver Radium Superfund Site

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule, extension of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) Region 8 issued a Notice of Intent to Delete portions of the Denver Radium Superfund Site from the National Priorities List (NPL) on September 9, 2010 (75 FR 54779). The portions proposed for deletion are each of the 11 operable units at the Denver Radium Site, located in the City and County of Denver, Colorado. Groundwater contamination associated with Operable Unit 8 will remain on the NPL. To ensure that everyone has an opportunity to comment, EPA is extending the public comment period through November 1, 2010. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Colorado, through the Colorado Department of Public Health and Environment (CDPHE), have determined that all appropriate response actions under CERCLA, other than operation, maintenance and five-year reviews have been completed. This rationale for deleting the 11 operable units of the Denver Radium Superfund Site has not changed. The Federal Register notice for the proposed deletion (75 FR 54779) discusses this rationale in detail.

DATES: Comments concerning the proposed partial deletion may be submitted to EPA on or before November 5, 2010.
