Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need

not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Smart Grid Interoperability Standards; Notice of Docket Designation for Smart Grid Interoperability Standards

October 7, 2010.

1. The Energy Independence and Security Act of 2007 (EISA)¹ lays out the policy of the United States with regard to modernization of the nation's electricity transmission and distribution system and directs the development of a framework to achieve interoperability of smart grid devices and systems, including protocols and model standards for information management.² EISA directs the National Institute of Standards and Technology (NIST) to coordinate the development of this framework. Once the Commission is satisfied that NIST's work has led to "sufficient consensus" on interoperability standards, EISA directs the Commission to "institute a rulemaking proceeding to adopt such standards and protocols as may be necessary to insure smart-grid functionality and interoperability in interstate transmission of electric power, and regional and wholesale electricity markets."³

2. In August 2009, NIST launched a three-phase plan to expedite the development of smart grid interoperability standards. In the first phase, NIST led the smart grid community in a participatory public process to identify applicable standards, as well as priorities for additional standardization activities. In January 2010, NIST released a framework and roadmap that identified a number of standards that are applicable to the ongoing development of the smart grid.⁴ After further discussion with stakeholders and an analysis of the standards' cyber security protections, NIST has now identified five suites of standards that it states are ready for consideration by regulatory authorities. While the Commission has made no determination yet on whether "sufficient consensus" exists for these standards, the Commission is issuing this notice to

¹ Public Law 110–140, 121 Stat. 1492 (2007).

² EISA 1305(a), to be codified at 15 U.S.C. 17385(a).

³ EISA 1305(d), to be codified at 15 U.S.C. 17385(d).

⁴ *Framework and Roadmap for Smart Grid Interoperability Standards, Release 1.0*, NIST Special Publication 1108, January 2010, available at http://www.nist.gov/public_affairs/releases/upload/smartgrid_interoperability_final.pdf.

designate the docket captioned above for a possible rulemaking proceeding pursuant to EISA section 1305(d).

3. In accordance with the Federal Administrative Procedure Act,⁵ the Commission will issue a Notice of Proposed Rulemaking for comment before adopting any of the five suites of standards identified by NIST.

4. For the convenience of interested stakeholders, the Commission has placed NIST's announcement and descriptions of the standards that have been prepared by NIST in the record of this proceeding. These documents are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site under the above docket number at <http://www.ferc.gov> using the eLibrary link. Central New York Oil and Gas Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed MARC I Hub Line Project and Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting and Onsite Review

September 22, 2010.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the MARC I Hub Line Project involving construction and operation of facilities by Central New York Oil and Gas Company, LLC (CNYOG) in Bradford, Sullivan, and Lycoming Counties, Pennsylvania. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project.
