SUPPLEMENTARY INFORMATION: Consistent with National Park Service laws, regulations, and policies, and the purpose of the National Historic Site, the Draft GMP/EIS describes and analyzes three alternatives (1-3) to guide the management of the National Historic Site over the next 15 to 20 years. The alternatives incorporate various management prescriptions to ensure protection, access and enjoyment of the park's resources. *Alternative 1*,

the no action alternative, proposes to maintain the current interpretive focus, visitor experience and management direction. Construction of a new collections storage building, that has begun, would be completed. *Alternative 2: Experiencing the Past* proposes to remove post-1948 development and consolidate administrative functions to recreate the feeling of the Hampton Estate near the end of its period of greatest significance. Historic structures and cultural landscapes would be rehabilitated, to the greatest extent possible, to facilitate this visitor experience. *Alternative 3: Broadening the Hampton Experience*, the NPS preferred alternative, proposes to expand the visitor experience to include the entire story of the park from the 18th century through today, to rehabilitate select historic structures and cultural landscapes for interpretation and to rehabilitate the remaining park historic and modern buildings for visitor services and park operations.

The Draft GMP/EIS evaluates potential environmental consequences of implementing the three alternatives. It describes the affected natural, cultural, scenic, and socioeconomic environments within and near the park and analyzes potential impacts on park resources and values. Resource impact topics analyzed include: cultural landscapes, historic structures, archeological resources, ethnography, wetlands, water quality, vegetation, wildlife, land use, visitor experience, and operations and maintenance.

If you wish to comment on the Draft GMP/EIS, you may submit your comments by any one of several methods. The preferred method to comment is to submit comments electronically through the NPS PEPC Web site at (<http://parkplanning.nps.gov/hamp>). You may also send written comments to Superintendent Gay Vietzke, Hampton National Historic Site, 535 Hampton Road, Towson, Maryland, 21286.
