Summary: The purpose of the Executive Order is to establish an integrated strategy toward sustainability in the Federal Government and to make reduction of greenhouse gas (GHG) emissions a priority for Federal agencies. Among other provisions, E.O. 13514 requires agencies to measure, report, and reduce their GHG emissions. It also requires the Chair of the Council on Environmental Quality (CEQ) to issue guidance establishing government-wide requirements for Federal agencies in calculating and reporting GHG emissions associated with agency operations. This Final Guidance, “Federal Greenhouse Gas Accounting and Reporting,” is available as of October 6, 2010 at: http://www.whitehouse.gov/administration/eop/ceq/sustainability/fed-ghg.

FOR FURTHER INFORMATION CONTACT:

Dated: October 12, 2010.
Nancy H. Sutley,
Chair, Council on Environmental Quality.

The Federal Government seeks to continually improve both the quality of data and methods necessary for calculating GHG emissions. Over time, additional requirements, methodologies, and procedures will be included in revisions to this document and supporting documents to improve the Federal Government’s overall ability to accurately account for and report GHG emissions.
