3. Is this assessment a priority for stakeholders outside of EPA (e.g., states, tribes, local governments, environmental organizations, industries, or other IRIS users)? Why is it a priority?
4. Are you aware of other assessments of this substance that may be available to EPA (e.g., an EPA program has assessed this substance, but it has not received Agency-wide IRIS review, a state or other federal agency has an assessment, or another government or private organization has assessed this substance)? If possible, please provide specific information to allow EPA to locate and obtain the assessment.
5. For substances being nominated for IRIS reassessment, what, if any, significant new scientific data or risk assessment methodology is available that you believe would be likely to appreciably change the existing IRIS assessment? Please provide specific citations and other information that would allow EPA to locate and obtain the papers or data.
6. Are you aware of other factors that would make this substance a priority for IRIS assessment (e.g., widespread exposure, expected toxicity, or potentially susceptible populations)?
