SUPPLEMENTARY INFORMATION: The
subject permit is requested under the
authority of the Marine Mammal
Protection Act of 1972, as amended
(MMPA: 16 U.S.C. 1361 et seq.), and the
regulations governing the taking and
importing of marine mammals (50 CFR
part 216).

The applicant requests a five-year
permit to take bottlenose dolphins for
scientific research. Annually, up to
15,000 individuals would be
approached for photo-identification and
behavioral studies and 100 dolphins
would be remotely biopsy sampled. Fifty
dolphins a year would be
approached, examined, sampled, tagged,
marked, and released for health
assessment studies. Research would
occur in the shallow coastal waters of
west Florida out to 50 nm offshore, with
a focus along the central west coast,
from Clearwater southward to Fort
Myers, including Sarasota Bay, Tampa
Bay, Lemon Bay, Gasparilla Sound,
Charlotte Harbor, and Pine Island
Sound. Females with calves less than
one year old would not be captured. The
research would provide crucial
background information on individual
identification, sex, age, reproductive
status, and genetic relationships to
support long-term observational studies
of population structure, population
dynamics, life history, social structure,
genetic structure including paternity
patterns, and human interactions. The
sampling and tagging would support
studies of contaminant loads and
associated medical effects, immune
system function, effects of harmful
algae, nutritional status, feeding
behavior, ranging patterns, studies of
whistle development and function,
measures of hearing ability, and
behavior associated with sound
production. Research would also
include assessments of oil spill impacts
at individual and population levels.

In compliance with the National
Environmental Policy Act of 1969 (42
U.S.C. 4321 et seq.), an initial
determination has been made that the
activity proposed is categorically
excluded from the requirement to
prepare an environmental assessment or
environmental impact statement.

Concurrent with the publication of
this notice in the Federal Register,
NMFS is forwarding copies of the
application to the Marine Mammal
Commission and its Committee of
Scientific Advisors.

P. Michael Payne,
Chief, Permits, Conservation and
Education Division, Office of Protected
Resources, National Marine Fisheries Service.
