Patent and Trademark Office

Green Technology Pilot Program

ACTION: Proposed collection; comment request.

SUMMARY: The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on the revision of a currently approved collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before December 20, 2010.

ADDRESSES: You may submit comments by any of the following methods:
The United States Patent and Trademark Office (USPTO) implemented a pilot program on December 8, 2009, that permits patent applications pertaining to green technologies, including greenhouse gas reduction, to be advanced out of turn for examination and reviewed earlier (accorded special status). The program is designed to promote the development of green technologies. Participation was previously limited to applications filed before December 8, 2009. The USPTO is expanding the eligibility for the pilot program to include applications filed on or after December 8, 2009. The program is also being extended until December 31, 2011. These changes will permit more applications to qualify for the program, thereby allowing more inventions related to green technologies to be advanced out of turn for examination and reviewed earlier. Applicants may participate in the green technology pilot program without meeting the current requirements of the accelerated examination program. The accelerated examination program is covered under OMB Control Number 0651–0031.

This pilot will support national and international green technology initiatives.

II. Method of Collection

Electronically using the USPTO online filing system EFS–Web.

Estimated Total Annual Non-hour Respondent Cost Burden: $36,410 per year. There are no capital start-up or maintenance costs associated with this information collection. However, this collection does have record keeping costs and filing fees for the second or subsequent protest filed by the same real party in interest and for a third-party submission under 37 CFR 1.99.

When submitting the information in this collection to the USPTO electronically through EFS–Web, the applicant is strongly urged to retain a copy of the file submitted to the USPTO as evidence of authenticity in addition to keeping the acknowledgment receipt as clear evidence of the date the file was received by the USPTO. The USPTO estimates that it will take 2 minutes (0.03 hours) to print and retain a copy of the EFS–Web submissions and that approximately 2,225 submissions per year will be submitted electronically, for a total of approximately 67 hours per year for printing this receipt. Using the paraprofessional rate of $100 per hour, the USPTO estimates that the record keeping cost associated with this collection will be approximately $6,700 per year.

There is no fee for filing protests under 37 CFR 1.291 unless the filed protest is the second or subsequent protest by the same real party in interest, in which case the 37 CFR 1.17(i) fee of $130 must be included (the USPTO estimates 7 of the 65 protests filed per year will trigger this fee). Third-party submissions under 37 CFR 1.99 must include the 37 CFR 1.17(p) fee of $180. The USPTO estimates that the total fees associated with this collection will be approximately $29,710 per year.

The total non-hour respondent cost burden for this collection is $36,410 per year.
