MILLENNIUM CHALLENGE CORPORATION

[MCC FR 10-13]

Amendment to the Report on the Selection of Eligible Countries for Fiscal Year 2011

AGENCY: Millennium Challenge Corporation.

ACTION: Notice.

SUMMARY: This notice amends the previously published report entitled "Report on the Criteria and Methodology for Determining the Eligibility of Candidate countries for Millennium Challenge Account Assistance for Fiscal Year 2011," which appeared October 4, 2010 in the **Federal Register** (Volume 75, Number 191, pages 61216-61219).

Background

MCC relies on information from the International Monetary Fund (IMF) for its Fiscal Policy indicator. The amendment to the reference report is to adjust for the IMF's decision this year to replace one data series with another of slightly different technical specifications. IMF made this replacement data public on October 6, 2010 and subsequent to our earlier **Federal Register** notice.

In previous years, the data MCC used for this measure had come primarily from publicly available IMF country reports or, where public IMF data were outdated or unavailable, were provided directly by candidate country

governments with input from U.S. missions in host countries. All data were cross-checked with the series General Government Balance (or Central Government Balance) as a percent of gross domestic product (GDP) from the IMF's World Economic Outlook database to try to ensure consistency across countries. However, beginning with the 2010 World Economic Outlook database, the IMF replaced the General Government Balance series with the Net Lending/Borrowing series.

Whereas General Government Balance was calculated as revenue minus expenditure and net lending operations, Net Lending/Borrowing is calculated simply as revenue minus total expenditure. It is similar to General Government Balance, but is believed to be an improved measure; its adoption is part of an IMF migration to a more rigorous, transparent, and comprehensive framework for recording government finance statistics. The Net Lending/Borrowing series is also publicly available for 182 countries as part of the World Economic Outlook database. Consequently, the substitution of the Net Lending/Borrowing series makes MCC's use of this indicator even more transparent.

Amendment

The description of the Fiscal Policy indicator appearing on page 61218 is amended to read:

Fiscal Policy: General government net lending/borrowing as a percent of GDP, averaged over a three-year period. Net lending/borrowing is calculated as revenue minus total expenditure. Source: *International Monetary Fund's World Economic Outlook Database.*

The previously published language under the heading *Fiscal Policy* is stricken.

Dated: October 15, 2010.

*VP/General Counsel and Corporate Secretary,

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-331; NRC-2010-0048]

Nextera Energy Duane Arnold, LLC; Duane Arnold Energy Center; Notice of Availability of the Final Supplement 42 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC or Commission) has published a final plant-specific Supplement 42 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, regarding the renewal of operating license DPR-49 for an additional 20 years of operation for the Duane Arnold Energy Center (DAEC). The DAEC is located in Linn County, Iowa, approximately two miles north-northeast of the town of Palo. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

As discussed in Section 9.4 of the final Supplement 42, based on: (1) The analysis and findings in the GEIS; (2)

the Environmental Report submitted by NextEra Energy Duane Arnold, LLC (formerly known as FPL Energy Duane Arnold, LLC (FPL-DA)); (3) consultation with Federal, State, and local agencies; (4) the staff's own independent review; and (5) the staff's consideration of public comments. The recommendation of the staff is that the NRC determines that the adverse environmental impacts of license renewal for DAEC are not great enough to deny the option of license renewal for energy-planning decision-makers.

The final Supplement 42 to the GEIS is publicly available at the NRC Public Document Room, located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. The accession number for the final Supplement 42 to the GEIS is ML102790308. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's Public Document Room Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail at PDR.Resource@nrc.gov. In addition, the Hiawatha Public Library, located at 150 West Willman Street, Hiawatha, Iowa, has agreed to make the final supplement to the GEIS available for public inspection.

SUPPLEMENTARY INFORMATION:

I. Background

In connection with the American Recovery and Reinvestment Act and the Patient Protection and Affordable Care Act, the NRC is soliciting early public input on issues associated with the use of electronic signatures on documents related to the medical use of byproduct material that are not submitted to the NRC but are maintained and inspected at the licensee's facility (*i.e.*, written directives required by 10 *Code of Federal Regulations* (CFR) 35.40 and records for inspection required by 10 CFR part 35 subpart L). For medical use licensees, 10 CFR 35.5 permits the use of electronic media to produce and store records that are maintained and inspected at the licensee's site. NRC is aware that many medical licensees already develop and store certain documents in electronic form and may use electronic signatures for electronic documents that require signatures by specific individuals.
