BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Convention on Supplementary Compensation for Nuclear Damage Contingent Cost Allocation

AGENCY: Office of the General Counsel, Department of Energy.

ACTION: Notice of extension of public comment period for reply comments.

SUMMARY: On July 27, 2010, the Department of Energy (DOE) published in the Federal Register a notice of inquiry (NOI) and request for comment from the public in its development of regulations pertaining to section 934 of the Energy Independence and Security Act of 2007 (“Act”). Section 934 addresses how the United States will meet its obligations under the Conventional for Supplementary Compensation for Nuclear Damage (“CSC”) including its obligation to contribute to an international supplementary fund in the event of certain nuclear incidents. The NOI provided a September 27, 2010, deadline for comments, which was subsequently extended to October 27, 2010 in response to a public request for extension. This notice announces a second and final extension of the comment period to November 30, 2010.

DATES: DOE will accept comments and information regarding the NOI and the development of regulations under the Act received no later than November 30, 2010.

ADDRESSES: Any comments submitted must identify section 934 of the Act, as appropriate. Comments may be submitted using any of the following methods:

- E-mail: Section934Rulemaking@hq.doe.gov
- Postal Mail: Thelma Melendez de Santa Ana, Assistant Secretary, Office of Elementary and Secondary Education, 400 Maryland Avenue, SW., Washington, DC 20202–6400.

SUPPLEMENTARY INFORMATION: On July 27, 2010, the DOE published an NOI in the Federal Register (75 FR 43945) on the development of regulations under section 934 of the Act, entitled “Convention on Supplementary Compensation for Nuclear Damage Contingent Cost Allocation.” Section 934 addresses how the United States will meet its obligations under the CSC and, in particular, its obligation to contribute to an international supplementary fund in the event of certain nuclear incidents. Section 934 authorizes the Secretary of Energy to issue regulations establishing a retrospective risk pooling program by which nuclear suppliers will reimburse the United States government for any such contribution. This retrospective risk pooling program will operate with respect to nuclear incidents that are covered by the international supplementary fund, take place outside the United States, and are not covered by the Price-Anderson Act indemnification.

The NOI requested public comment from interested persons regarding specific as well as general questions and provided for the submission of comments by September 27, 2010. Thereafter, DOE received comments dated August 10, 2010, from the Nuclear Energy Institute (NEI) stating that the issues related to the risk pooling program warranted additional time for nuclear suppliers to provide comments to DOE and requesting an extension to October 27, 2010. Accordingly, on August 24, 2010, DOE published a notice in the Federal Register (75 FR 51986) extending the period for submitting public comments to October 27, 2010.

DOE has now received comments dated October 8, 2010, from Contractors International Group on Nuclear Liability (CIGNL), a nongovernmental group of major U.S. nuclear suppliers, requesting an extension of the public comment period to November 30, 2010. CIGNL stated that the complexity and number of issues presented in the NOI for public comment has made it difficult for CIGNL members to carefully review and coordinate comments. For example, CIGNL noted that there is little or no data now available to identify which entities located in, carries out activities in, the United States have or are furnishing goods or services to
