Second Antidumping Duty Administrative Review of Certain Polyester Staple Fiber From the People's Republic of China: Extension of Time Limit for the Final Results

Agency: Import Administration, International Trade Administration, Department of Commerce.

Dates: Effective Date: October 20, 2010.

For Further Information Contact: Steven Hampton or Jerry Huang, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0116 or (202) 482-4047, respectively.

Background

On July 14, 2010, the Department of Commerce ("Department") published in the **Federal Register** the *Preliminary Results* of the second administrative review of certain polyester staple fiber ("PSF") from the People's Republic of China ("PRC"), covering the period June 1, 2008-May 31, 2009. *Certain Polyester Staple Fiber From the People's Republic of China: Notice of Preliminary Results and Preliminary Rescission, in Part, of the Antidumping Duty Administrative Review*, 75 FR 40777 (July 14, 2010) ("*Preliminary Results*").

Extension of Time Limit for the Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the

final results of an administrative review within 120 days after the date on which the *Preliminary Results* have been published. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend this deadline to a maximum of 180 days. The current deadline for the completion of the final results of this review is November 11, 2010.

The Department has determined that completion of the final results of this review by the current deadline is not practicable. The Department requires more time to analyze a significant amount of information pertaining to the respondents' corporate structure and ownership, sales practices and manufacturing methods, as well as the labor wage rate surrogate value. Therefore, given the number and complexity of issues in this case, and in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the final results of review until December 20, 2010.

This notice is published pursuant to sections 751(1)(3)(A) and 777(i)(1) of the Act and 19 CFR 351.213(h)(2).

Dated: October 13, 2010.

Susan H. Kuhbach,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

First Administrative Review of Sodium Hexametaphosphate From the People's Republic of China: Final Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On April 15, 2010, the Department of Commerce ("Department") published the *Preliminary Results* of the first administrative review of the antidumping duty order on sodium hexametaphosphate ("sodium hex") from the People's Republic of China ("PRC").¹ We gave interested parties an opportunity to comment on the

Preliminary Results. Based upon our analysis of the comments and information received, we made changes to the margin calculation for the final results. We find that the sole participating respondent in this review, Hubei Xingfa Chemical Group Co., Ltd. ("Xingfa"), sold subject merchandise at less than normal value ("NV") during the period of review ("POR"), September 14, 2007–February 28, 2009.

DATES: *Effective Date:* October 20, 2010.

FOR FURTHER INFORMATION CONTACT: Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0413.

SUPPLEMENTARY INFORMATION:

Background

As noted above, on April 15, 2010, the Department published the *Preliminary Results* of this administrative review. On August 10, 2010, the Department published a notice extending the time period for issuing the final results by 53 days to October 5, 2010.² On October 5, 2010, the Department extended the time period for issuing the final results by an additional 7 days to October 12, 2010.³ On July 26, 2010, the Department placed wage rate data on the record for comment following the recent decision in *Dorbest Limited et al. v. United States*, 2009–1257, –1266, issued by the United States Court of Appeals for the Federal Circuit ("CAFC") on May 14, 2010.⁴ Between May 21, 2010 and August 13, 2010, we received case and rebuttal briefs from the Petitioners⁵ and Xingfa.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties are addressed in the "First Administrative Review of Sodium Hexametaphosphate from the People's Republic of China: Issues and Decision Memorandum for the Final Results," which is dated concurrently with this notice ("I&D Memo"). A list of the issues which parties raised, and to which we respond in the I&D Memo, is

attached to this notice as an Appendix. The I&D Memo is a public document and is on file in the Central Records Unit ("CRU"), Main Commerce Building, Room 7046, and is accessible on the Department's Web site at <http://www.trade.gov/ia>. The paper copy and electronic version of the memorandum are identical in content.

Changes Since the Preliminary Results

Based on a review of the record, as well as comments received from parties regarding our *Preliminary Results*, we have made revisions to Xingfa's margin calculation for the final results. We have revised classifications for certain expenses in the surrogate financial ratios used in the *Preliminary Results*. Specifically, we have excluded packing costs and freight and forwarding costs because it is the Department's practice to exclude certain expenses in order to avoid double-counting costs where the requisite data are available to do so.⁶ Moreover, consistent with the Department's practice, we have included purchased goods in the denominator of the SG&A and profit ratio calculations.⁷

Pursuant to a recent decision by the CAFC,⁸ we have calculated a revised hourly wage rate to use in valuing Xingfa's reported labor. The revised wage rate is calculated by averaging earnings and/or wages in countries that are economically comparable to the PRC and that are significant producers of comparable merchandise.⁹ Additionally, we have revised the surrogate value for sodium pyrophosphate.¹⁰

Scope of the Order

The merchandise subject to this review is sodium hexametaphosphate. Sodium hexametaphosphate is a water-soluble polyphosphate glass that
