

Authorization

As a result of these determinations, NMFS proposes to issue an IHA to SIO for conducting a marine geophysical survey in the eastern tropical Pacific Ocean, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. The duration of the IHA would not exceed one year from the date of its issuance.

Dated: October 15, 2010.

Helen M. Golde,

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

RIN 0648-XZ53

Taking and Importing of Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; annual affirmative finding renewal.

SUMMARY: The Assistant Administrator for Fisheries, NMFS, (Assistant Administrator) has renewed the affirmative finding for the Government of El Salvador under the Marine Mammal Protection Act (MMPA). This affirmative finding will allow yellowfin tuna harvested in the eastern tropical Pacific Ocean (ETP) in compliance with the International Dolphin Conservation Program (IDCP) by El Salvadorian-flag purse seine vessels or purse seine vessels operating under El Salvadorian jurisdiction to be imported into the United States. The affirmative finding was based on review of documentary evidence submitted by the Government of El Salvador and obtained from the Inter-American Tropical Tuna Commission (IATTC) and the U.S. Department of State.

DATES: The affirmative finding renewal is effective from April 1, 2010, through March 31, 2011.

FOR FURTHER INFORMATION CONTACT: Sarah Wilkin, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213; phone 562-980-3230; fax 562-980-4027.

SUPPLEMENTARY INFORMATION: The MMPA, 16 U.S.C. 1361 *et seq.*, allows the entry into the United States of yellowfin tuna harvested by purse seine

vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under the IDCP and obligations of membership in the IATTC. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS will review the affirmative finding and determine whether the harvesting nation continues to meet the requirements. A nation may provide information related to compliance with IDCP and IATTC measures directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS to annually renew an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of the IDCP.

As a part of the affirmative finding process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the Republic of El Salvador or obtained from the IATTC and the Department of State and has determined that El Salvador has met the MMPA's requirements to receive an annual affirmative finding renewal.

After consultation with the Department of State, the Assistant Administrator issued the Republic of El Salvador's annual affirmative finding renewal, allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by El Salvadorian-flag purse seine vessels or purse seine vessels operating under El Salvadorian jurisdiction. This annual renewal of El Salvador's affirmative finding will remain valid through March 31, 2011.

Dated: October 15, 2010.

Eric C. Schwaab,

Assistant Administrator for Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE**Department of the Army; Corps of Engineers****Intent To Prepare a Draft Supplemental Environmental Impact Statement (SEIS), Mississippi Barrier Island Restoration, Mississippi Coastal Improvements Program (MsCIP) for Hancock, Harrison, and Jackson Counties, MS**

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The Mobile District, U.S. Army Corps of Engineers (Corps), intends to prepare a Draft Supplemental Environmental Impact Statement (DSEIS) to the MsCIP Comprehensive Plan and Integrated Programmatic EIS, prepared in June 2009, which evaluated comprehensive water resource improvements associated with hurricane and storm damage risk reduction, shoreline erosion, salt water intrusion and fish and wildlife preservation in three coastal counties of Mississippi. As described in the Comprehensive Plan, the SEIS will address potential impacts associated with the comprehensive restoration of the Mississippi barrier islands. These actions are related to the consequences of hurricanes in the Gulf of Mexico in 2005 and will be used as a basis for ensuring compliance with the National Environmental Policy Act (NEPA).

ADDRESSES: Questions about the proposed action and the DSEIS should be addressed to Mr. Larry Parson, or Dr. Susan Ivester Rees, Planning and Environmental Division, Mobile District, U.S. Army Corps of Engineers, P.O. Box 2288, Mobile, AL 36628-0001.

FOR FURTHER INFORMATION CONTACT: Mr. Larry Parson, (251) 694-3139 or e-mail at larry.e.parson@usace.army.mil or Dr. Susan Ivester Rees, (251) 694-414, or e-mail at susan.i.rees@usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. Hurricane Katrina made landfall in Mississippi on August 29, 2005 causing catastrophic damage to lives, property, and natural resources throughout coastal Mississippi. In response, the U.S. Congress directed the Secretary of the Army through the Corps of Engineers (the Corps) to conduct an
