

of the new Sollers Wharf switching station is located near the intersection of Sollers Wharf Road and Pardoe Road, west of Maryland Highways 2 and 4 near the Calvert Cliffs tap.

Approximately 6 to 10 acres of the 40-acre site would be disturbed during construction. The remainder of the site would serve as a buffer. Construction of the proposal is anticipated for completion in 2015.

A Notice of Intent to prepare an EA and hold a scoping meeting was published in the **Federal Register** on August 27, 2008, in the *Enterprise* (St. Mary's County) on August 29, 2008, and in the *Calvert Recorder* on August 29, 2008. A public meeting was held on September 11, 2008, in SMECO's Calvert Regional Office located at 901 Dares Beach Road, Prince Frederick, Maryland. A scoping summary report can be found at the RUS website listed in this Notice. The notice of availability of the EA for public review was published in the **Federal Register** on September 3, 2010, and in the *Enterprise* and *Calvert Recorder* on September 3 and 9, 2010. The EA was available for public and agency review on the RUS Web site listed in this Notice; at SMECO's Calvert Regional Office located at 901 Dares Beach Road, Prince Frederick, Maryland, and at SMECO's St. Mary's Regional Office located at 23365 Hollywood Road, Leonardtown, Maryland. The 30-day comment period ended on October 3, 2010. No comments were received.

SMECO hired Black and Veatch to prepare an EA for RUS that described the proposal and assessed its potential environmental impacts. RUS conducted an independent evaluation of the EA and concurred with its scope and content. In accordance with RUS's Environmental Policies and Procedures at 7 CFR 1794.41, RUS accepted the document as its official EA.

Based on its EA, RUS has concluded that the proposal would have no significant impacts to water quality, wetlands, the 100-year floodplain, land use, aesthetics, transportation, or human health and safety. The proposal will have no adverse effects on historic properties listed or eligible for listing on the National Register of Historic Places. RUS has also concluded that the proposal is not likely to affect federally listed threatened and endangered species or designated critical habitat. The proposal would not disproportionately affect minority and low-income populations.

No other potential significant impacts resulting from the proposal have been identified. Therefore, RUS has determined that this FONSI fulfills its

obligations under NEPA for its action related to the proposal. RUS is satisfied that the environmental impacts of the proposal have been adequately addressed. If RUS takes a federal action on the proposal, it will not result in significant impacts to the quality of the human environment. Accordingly, an Environmental Impact Statement will not be prepared for the proposal.

Dated: October 19, 2010.

James R. Newby,
Chief of Staff, Rural Utilities Service.
