

day public review and comment period, which we announced via several methods, including press releases, updates to constituents, and a **Federal Register** notice (74 FR 38668, August 4, 2009). The Draft CCP/EA identified and evaluated three alternatives for managing the Refuge for the next 15 years. Alternative A was the no-action alternative, which described current Refuge management activities. Alternative B (the selected alternative) would restore the portion of the Williamson River and Big Spring Creek on the Refuge; and expand visitor services. Alternative C would also restore the portions of the Williamson River and Big Springs Creek on the Refuge; and recommend 11,165 acres for wilderness designation.

We received 56 comment letters on the Draft CCP and EA during the review period. We incorporated these received comments into the CCP when possible, and we responded to the comments in an appendix to the CCP. In the FONSI, we selected Alternative B, the basis for the CCP, for implementation. The FONSI documents our decision and is based on the information and analysis contained in the EA.

Under the selected alternative, the Service would restore the portion of the Williamson River and Big Spring Creek on the Refuge; substantially improve management of emergent marsh, meadows, ponderosa pine forest and aspen to increase habitat value for migratory birds and other wildlife; improve and expand visitor services by developing new trails, interpretive exhibits, an environmental education program, and a visitor contact station; maintain existing hunting and fishing programs with minor modifications; increase cultural resources protection; and recommend no units for wilderness designation. The Service would also revise and update the MOU with the Klamath Tribes regarding subsistence hunting and gathering. The selected alternative best meets the Refuge's purposes, vision, and goals; contributes to the Refuge System mission; addresses the significant issues and relevant mandates; and is consistent with principles of sound fish and wildlife management.

Bureau of Indian Affairs

Final Environmental Impact Statement for the Proposed Fee-to-Trust Conveyance of Property for the Cayuga Nation of New York in Cayuga and Seneca Counties, NY

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Availability.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA) is making available for public review the Final Environmental Impact Statement (FEIS) for the proposed conveyance of 125± acres of land that is currently held by the Cayuga Nation of New York in fee status into trust status. The uses of the properties, which include two convenience stores, would not change. The application includes two properties that have been used for Class II Indian gaming, operational at the time of the application, on one property in Seneca County and one property in Cayuga County. The Class II Indian gaming on the Cayuga Reservation would be expected to resume if the properties are placed into trust. The cooperating agencies for the proposal are the Cayuga Nation, Seneca County, Cayuga County and New York State Department of Environmental Conservation. The purpose of the proposed action is to create a tribal land base and to help meet the Nation's socio-economic needs.

DATES: The Record of Decision (ROD) on the proposed action will be issued no sooner than 30 days after the release of the FEIS. Thus, any comments on the FEIS must arrive by November 22, 2010.

ADDRESSES: You may mail, hand carry or telefax written comments to Franklin Keel, Regional Director, Eastern Regional Office, Bureau of Indian Affairs, 545 Marriott Drive, Suite 700, Nashville, Tennessee 37214, Telefax (615) 564-6701. Please see the **SUPPLEMENTARY INFORMATION** section of this notice for directions for submitting comments and locations where copies of the FEIS are available.

FOR FURTHER INFORMATION CONTACT: Kurt G. Chandler, (615) 564-6832.

SUPPLEMENTARY INFORMATION: The proposed alternatives are: (A) The Proposed Action (this is the action proposed by the Cayuga Indian Nation, to take all 125 +/- acres into trust); (B) No Action Alternative; and (C) Enterprise Properties into Trust (this alternative includes a single section of contiguous parcels in Seneca County and a single section of contiguous parcels in Cayuga County). Alternative C was proposed in order to analyze whether there were any specific impacts related to the contiguity of the parcels.

The Draft Environmental Impact Statement (DEIS), dated May 2009, has been revised in response to comments, and the revision is being issued as the FEIS for the purposes of compliance with the National Environmental Policy Act of 1969. The total acreage and number of parcels was reduced after the publication of the DEIS. The application originally consisted of seven parcels in four contiguous groups, listed under nine tax identification numbers. With the removal of a single 0.05 acre parcel from the application, three contiguous groups, listed under eight tax identification numbers, are currently under consideration for transfer into trust status. This revision is not considered significant, nor does the removal of the parcel from the application provide significant differences in impacts on the environment. Therefore, issuance of an additional DEIS for public review was not considered necessary.

Directions for Submitting Comments: Please include your name, return address and the caption, "FEIS Comments, Cayuga Indian Nation of New York Trust Acquisition Project," on the first page of your written comments.
