[Docket No. FAA-2010-0322; Airspace Docket No. 10-ANE-105]

Establishment of Class E Airspace; Colebrook, NH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); withdrawal.

SUMMARY: This action withdraws the NPRM published in the **Federal Register** on July 19, 2010, which proposed to establish Class E airspace at Upper Valley Connecticut Hospital, Colebrook, NH. The NPRM is being withdrawn as a portion of the proposed airspace already exists. A new rulemaking will be forthcoming to correctly establish the new airspace.

DATES: Effective 901 UTC, October 26, 2010.

FOR FURTHER INFORMATION CONTACT: Richard Horrocks, Operations Support Group, Eastern Service Center, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5588.

SUPPLEMENTARY INFORMATION:

History

On July 19, 2010, a NPRM was published in the **Federal Register** to establish Class E airspace at Colebrook, NH to accommodate special standard instrument approach procedures for Upper Valley Connecticut Hospital (74 FR 41772) Docket No. 2010-0322. After publication, the FAA found that the airspace description in the proposed rule incorrectly included existing controlled airspace 1,200 feet above the surface. To avoid confusion, this proposed rule is being withdrawn and will be established under another rulemaking.

ACTION: Notice of proposed rulemaking (NPRM).

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory circular No. 11-2A, Notice of Proposed Rulemaking distribution System, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to amend Class E airspace designated as surface area to remove any reference to the decommissioned Vero Beach NDB at Vero Beach Municipal Airport, Vero Beach, FL. This action would also add additional controlled Class E airspace extending upward from 700 feet above the surface to accommodate new SIAPs at the airport, and would remove Class E airspace designated as an extension to Class D surface area to eliminate controlled airspace not required for the new SIAPs developed for Vero Beach Municipal Airport. Class E airspace designated as surface areas, Class E airspace areas designated as an extension to a Class D surface area, and Class E airspace areas extending upward from 700 feet above the surface of the earth are published in Paragraph 6002, 6004, and 6005, respectively, of FAA order 7400.9U, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and

routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would amend Class E airspace at Vero Beach Municipal Airport, Vero Beach, FL.
