

of the El Segundo Blue Butterfly and Gaviota Tarplant. The No Action alternative would maintain current conditions, the project would not be implemented, no impacts to the El Segundo Blue Butterfly and Gaviota Tarplant would occur, and an incidental take permit application would not be submitted to the Service. The second alternative would involve helicopter access to the site, which would eliminate the risk of driving over the listed plant species.

We are requesting comments on our preliminary determination that the applicant's proposal will have a minor or negligible effect on the species covered in the plan, and that the plan qualifies as a "low-effect" HCP as defined by our Habitat Conservation Planning Handbook (November 1996). We base our determination that the HCP qualifies as a low-effect HCP on the following three criteria: (1) Implementation of the applicant's project description in the HCP would result in minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) implementation of the HCP would result in minor or negligible effects on other environmental values or resources; and (3) impacts of the HCP—considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects—would not result, over time, in cumulative effects to the environmental values or resources that would be considered significant. Based upon our analysis of these criteria, we have made a preliminary determination that the approval of the HCP and issuance of an ITP qualify for categorical exclusions under the NEPA (42 U.S.C. 4321 *et seq.*), as provided by the Department of Interior Manual (516 DM 2 Appendix 2 and 516 DM 8). Based upon our review of public comments that we receive in response to this notice, this preliminary determination may be revised.

Next Steps

We will evaluate the HCP and comments we receive to determine whether the ITP application meets the requirements of section 10(a)(1)(B) of the Act and implementing regulations (50 CFR 17.22). We will also evaluate whether issuance of a section 10(a)(1)(B) permit would comply with section 7 of the Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue an ITP. If the requirements are met, we will issue the ITP to the applicant for the incidental

take of the El Segundo Blue Butterfly. We will make the final permit decision no sooner than 30 days after the date of this notice.
