SUPPLEMENTARY INFORMATION: The Department of Housing and Urban Development will submit the proposed information collection package to OMB for review as required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35, as amended).

I. Abstract: Description of the Need for the Information and Proposed Use

The Survey of Market Absorption (SOMA) provides the data necessary to measure the rate at which new rental apartments and new condominium apartments are absorbed; that is, taken off the market, usually by being rented or sold, over the course of the first twelve months following completion of a building. The data are collected at quarterly intervals until the twelve months conclude, or until the units in a building are completely absorbed. The survey also provides estimates of certain characteristics, including asking rent/

price, number of units, and number of bedrooms. The survey provides a basis for analyzing the degree to which new apartment construction is meeting the present and future needs of the public. Additionally, beginning with new construction in 2002, the survey ascertains the number and degree of services provided by "Assisted Living" type units.

II. Method of Collection

The methodology for collecting information on the lease or sale of new multifamily units involves contacting a sample of new multifamily units by telephone or in person.

III. Data

Title of Proposal: Survey of Market Absorption of New Multifamily Units.

OMB Control Number: 2528-0013 (Expires 1/30/2011).
