

complicated order routing strategies on their own.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change imposes any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁶ and Rule 19b-4(f)(6) thereunder.⁷

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act⁸ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)⁹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. BATS requests that the Commission waive the 30-day operative delay in order to allow BATS to immediately offer Exchange Users new routing strategies at or around the time that its affiliated national securities exchange, BYX, commences operations. Further, the Exchange believes that the proposed TRIM and SLIM routing strategies are consistent with routing strategies offered by the Nasdaq Stock Market ("NASDAQ").¹⁰ In addition, the Exchange believes that its proposed new routing strategies will benefit market participants and their customers by allowing them greater flexibility in their efforts to fill orders and minimize trading costs. The Exchange expects to have technological changes for one or more of the new routing strategies in

place to support the proposed rule change in the near future, and believes that benefits to Exchange Users expected from the proposed rule change should not be delayed. In addition, BATS states a delay to the implementation date would put the Exchange at a competitive disadvantage to other markets that already offer similar functionalities. The Commission believes that waiving the 30-day operative delay¹¹ is consistent with the protection of investors and the public interest and designates the proposal operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange.
