

disclosure language to their sales/leasing contracts. The attachment lists the information disclosed and acknowledges compliance by the seller, purchaser, and any agents involved in the transaction.

2. Lessors of pre-1978 housing must attach notification and disclosure language to their leasing contracts. The attachment, which lists the information disclosed and acknowledges compliance with all elements of the rule, must be signed by the lessor, lessee and any agents acting on their behalf. Agents and lessors must retain the information for three years from the completion of the transaction.

3. Agents acting on behalf of sellers or lessors are specifically required by section 1018 to comply with the disclosure regulations described in this paragraph.

Responses to the collection of information are mandatory (*see* 40 CFR part 745, subpart F, and 24 CFR part 35, subpart H). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 0.18 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 39,124,000.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.0.

Estimated total annual burden hours: 6,937,330 hours.

Estimated total annual costs: \$126,120,374. This includes an

estimated burden cost of \$126,120,374 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

IV. Are there changes in the estimates from the last approval?

There is a decrease of 807,286 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects changes in the housing market, namely a gradual reduction in the annual number of real estate sales and residential property rentals involving target housing subject to the rule's requirements. This change is an adjustment.

V. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
