

biospecimens will be distributed blinded, that is, with an identifier that will only be linked to the study identification number upon completion of laboratory analyses, unless arrangements have been made for interim analyses beforehand.

Progress Reports: Brief progress reports must be submitted annually to judge progress.

Disposition of Results and Samples: No samples provided can be used for any purpose other than those specifically requested in the proposal and approved by the Technical Panel. No sample can be shared with others, including other investigators, unless specified in the proposal and so approved. Any unused samples must be either discarded or returned to the Division Repository, according to the wishes of the BRADSC upon completion of the approved project.

Proposed Cost Schedule for Providing CPP Specimens: A nominal processing fee of approximately \$8.00–\$16.00 per sample, plus express shipping costs is anticipated for each sample requested and received. Costs will be fully estimated at the time of proposal acceptance and will take into consideration time and materials for the collection, storage and processing of the specimens by the Division Repository along with the preparation of the accompanying data files. The material costs are for the recurring laboratory costs to dispense and prepare the samples during collection and the computer software needed for the preparation of the data files. Because size of the shipments and distance to laboratories may vary, shipping costs will be estimated at the time of proposal acceptance. Cost reimbursement structures negotiated and accepted as part of a final proposal acceptance will be honored for one year from the date of proposal acceptance.

Proposed Cost for Accessing CPP Microfiche Archives: There is no direct cost for accessing the CPP microfiche archives, although arrangements will have to be made for access to the building and is dependent upon the space available to accommodate a researcher.

As additional specimens and resources from Division projects are made available for public use, announcements will be made on the Division Web site without further announcement in the **Federal Register**. As a reminder, the BRADSC and Division reserve the right to amend the proposal guidelines and cost schedule as needed and in keeping with the nature and complexity of the applicants' request.

Office of the Director, National Institutes of Health; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of a meeting of the Scientific Management Review Board.

The NIH Reform Act of 2006 (Pub. L. 109-482) provides organizational authorities to HHS and NIH officials to: (1) Establish or abolish national research institutes; (2) reorganize the offices within the Office of the Director, NIH including adding, removing, or transferring the functions of such offices or establishing or terminating such offices; and (3) reorganize divisions within an NIH national research institute or national center including adding, removing, or transferring the functions of such units, or establishing or terminating such units. The purpose of the Scientific Management Review Board (also referred to as SMRB or Board) is to advise appropriate HHS and NIH officials on the use of these organizational authorities and identify the reasons underlying the recommendations.

The meeting will be open to the public.

Name of Committee: Scientific Management Review Board.

Date: November 10, 2010.

Time: 1 p.m. to 2 p.m.

Agenda: Presentation and discussion will focus on the most recent charge to the SMRB, which entails (1) identifying the attributes, activities, and functional capabilities of an effective translational medicine program for advancing therapeutics; and (2) broadly assessing, from a high-level view, the NIH landscape for extant programs, networks, and centers for inclusion in this network and
