

Service requested to have the contract in Docket No. CP2010-71 serve as the baseline contract for future functional equivalence analyses of the GEPS 3 product.

The instant contracts. The Postal Service filed the instant contracts pursuant to 39 CFR 3015.5. In addition, the Postal Service contends that each contract is in accordance with Order No. 86. The term of each contract is 1 year from the date the Postal Service notifies the customer that all necessary regulatory approvals have been received. Notice at 3.

In support of its Notice, the Postal Service filed four attachments as follows:

Attachments 1A through 1H—redacted copies of the eight contracts and applicable annexes;

Attachments 2A through 2H—certified statements required by 39 CFR 3015.5(c)(2) for each contract;

Attachment 3—a redacted copy of Governors' Decision No. 08-7 which establishes prices and classifications for GEPS contracts, a description of applicable GEPS contracts, formulas for prices, an analysis of the formulas, and certification of the Governors' vote; and

Attachment 4—an application for non-public treatment of materials to maintain redacted portions of the contracts and supporting documents under seal.

The Notice advances reasons why the instant GEPS 3 contracts fit within the Mail Classification Schedule language for the GEPS 3 product. The Postal Service identifies customer-specific information and general contract terms that distinguish the instant contracts from the baseline GEPS 3 agreement. *Id.* at 4-5. It states that the differences, which include price variations based on updated costing information and volume commitments, do not alter the contracts' functional equivalency. *Id.* at 3-4. The Postal Service asserts that "[b]ecause the agreements incorporate the same cost attributes and methodology, the relevant characteristics of these eight GEPS contracts are similar, if not the same, as the relevant characteristics of previously filed contracts." *Id.* at 4.

The Postal Service concludes that its filings demonstrate that each of the new GEPS 3 contracts complies with the requirements of 39 U.S.C. 3633 and is functionally equivalent to the baseline GEPS 3 contract. Therefore, it requests that the instant contracts be included within the GEPS 3 product. *Id.* at 5.

II. Notice of Filing

The Commission establishes Docket Nos. CP2011-5 through CP2011-12 for

consideration of matters related to the contracts identified in the Postal Service's Notice.

These dockets are addressed on a consolidated basis for purposes of this order. Filings with respect to a particular contract should be filed in that docket.

Interested persons may submit comments on whether the Postal Service's contracts are consistent with the policies of 39 U.S.C. 3632, 3633, or 3642.³ Comments are due no later than October 19, 2010. The public portions of these filings can be accessed via the Commission's Web site (<http://www.prc.gov>).

The Commission appoints Paul L. Harrington to serve as Public Representative in the captioned proceedings.

III. Ordering Paragraphs

It is ordered:

1. The Commission establishes Docket Nos. CP2011-5 through CP2011-12 for consideration of matters raised by the Postal Service's Notice.

2. Comments by interested persons in these proceedings are due no later than October 19, 2010.

3. Pursuant to 39 U.S.C. 505, Paul L. Harrington is appointed to serve as the officer of the Commission (Public Representative) to represent the interests of the general public in these proceedings.

4. The Secretary shall arrange for publication of this order in the **Federal Register**.

By the Commission.

Shoshana M. Grove,
Secretary.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Request for Public Comment on the Draft 2010 National Nanotechnology Initiative Strategic Plan

AGENCY: White House Office of Science and Technology Policy.

ACTION: Notice: request for public comment.

SUMMARY: With this notice, the White House Office of Science and Technology Policy and the Nanoscale Science, Engineering, and Technology

Subcommittee of the National Science and Technology Council request comments from the public regarding the draft 2010 National Nanotechnology Initiative (NNI) Strategic Plan. The draft plan is posted at <http://strategy.nano.gov>. Comments of approximately one page or less in length (4,000 characters) are requested. This request will be active from November 1, 2010 to November 30, 2010.

DATES: Comments are invited beginning November 1, 2010 and must be received by 11:59 p.m. EST on November 30, 2010.

ADDRESSES: Respondents are encouraged to register online at the NNI Strategy Portal at <http://strategy.nano.gov> to post their comments (4,000 characters or less) as a response to the request for public comment. Alternatively, comments of one page in length or less may be submitted via e-mail to: nnistrategy@ostp.gov. Please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information.

Overview: The National Nanotechnology Initiative (NNI) Strategic Plan is the framework that underpins the nanotechnology work of the NNI member agencies. It aims to ensure that advances in nanotechnology research and development (R&D) and their applications to agency missions and the broader national interest continue unabated in this still-young field. Its purpose is to facilitate achievement of the NNI vision by laying out targeted guidance for agency leaders, program managers, and the research community regarding planning and implementation of nanotechnology R&D investments and activities.

The NNI is a U.S. Government R&D program of 25 agencies working together toward the common challenging vision of a future in which the ability to understand and control matter at the nanoscale leads to a revolution in technology and industry that benefits society. The combined, coordinated efforts of these agencies have accelerated discovery, development, and deployment of nanotechnology towards agency missions and the broader national interest. Established in 2001, the NNI involves nanotechnology-related activities by the 25 member agencies, 15 of which have budgets for nanotechnology R&D for Fiscal Year (FY) 2011.

The NNI is managed within the framework of the National Science and Technology Council (NSTC), the Cabinet-level council that coordinates

science and technology across the Federal government and interfaces with other sectors. The Nanoscale Science, Engineering, and Technology (NSET) Subcommittee of the NSTC coordinates planning, budgeting, program implementation, and review of the NNI. The NSET Subcommittee is composed of senior representatives from agencies participating in the NNI (<http://www.nano.gov>).

The NSET Subcommittee has solicited multiple streams of input to inform the development of a revised NNI Strategic Plan. Independent reviews of the NNI by the President's Council of Advisors on Science and Technology and the National Research Council of the National Academies have made specific recommendations for improving the NNI. Additional input has come from the NNI Strategic Planning Stakeholders Workshop in Arlington, Virginia, on July 13–14, 2010 (details available online: <http://www.nano.gov/html/meetings/NNISPWorkshop/index.html>) as well as in responses to a Request for Information published in the **Federal Register** on July 6, 2010 and comments posted online in response to challenge questions from July 13–August 15, 2010, at the NNI Strategy Portal (<http://strategy.nano.gov>).

The NNI Strategic Plan represents the consensus of the participating agencies as to the high-level goals and priorities of the NNI and specific objectives for at least the next three years. It describes the four overarching goals of the NNI, the major Program Component Areas established in 2004 to broadly track the categories of investments needed to ensure the success of the initiative, and the near-term objectives that will be the concrete steps taken toward collectively achieving the NNI vision and goals. Finally, the plan describes collaborative interagency activities, including three Nanotechnology Signature Initiatives that are a new model of specifically targeted and closely coordinated interagency, cross-sector collaboration designed to accelerate innovation in areas of national priority.

Your comments on this draft of the plan must be received by 11:59 p.m. EST on Sunday, November 30, 2010. Please reference page and line numbers as appropriate, and keep your responses to 4,000 characters or less. You may also e-mail your responses, no more than one page in length, to nnistrategy@ostp.gov.

Responses to this notice are not offers and cannot be accepted by the Federal Government to form a binding contract or issue a grant. Information obtained as a result of this notice may be used by the Federal Government for program planning on a non-attribution basis. Do

not include any information that might be considered proprietary or confidential. Please be aware that your comments may be posted online.
