The public lands are identified as suitable for disposal in the BLM's 1996 Caliente Resource Management Plan, as amended, and are not needed for any other Federal purpose.

The public lands proposed for sale consist of a long narrow strip that was not conveyed out of Federal ownership with other lands in the area due to an error in the original public land survey. The lands are difficult and uneconomic to manage as part of the public lands because they lack legal access, are isolated from other public lands, and due to the shape of the parcels have no independent utility. The BLM is proposing a direct sale to the adjacent landowners who control access to the public lands. A competitive sale is not considered appropriate because the lands lack legal access and generally only have value or utility to the adjacent landowners. The BLM has concluded the public interest would be best served by a direct sale. With the exception of oil and gas, the lands identified for sale are considered to have no known mineral value and the proposed sale would include the conveyance of both the surface interests and remaining mineral interests of the United States.

On November 2, 2010, the above described lands (Parcels No. 1 through 7) will be segregated from appropriation under the public land laws, including the mining laws, except the sale provisions of FLPMA. Until completion of the sale or termination of the segregation, the BLM will not accept land use applications affecting the identified public lands, except application for the amendment of

previously filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2802.15 and 2886.15. The segregation terminates upon issuance of a patent, publication in the **Federal Register** of a termination of the segregation, or November 2, 2012, whichever occurs first, unless extended by the BLM State Director in accordance with 43 CFR 2711.1-2(d) prior to the termination date. The lands will not be sold until at least 60 days after the date of publication of this notice in the **Federal Register**. The adjacent landowners would each be required to pay a \$50 nonrefundable filing fee for conveyance of the mineral interests. Any patent issued will contain the following numbered reservations, covenants, terms and conditions:

1. All parcels will be conveyed with a reservation of a right-of-way to the United States for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945), and a reservation of all oil and gas to the United States together with the right to prospect for, mine, and remove such oil and gas resources under applicable law and any regulations as the Secretary of the Interior may prescribe, along with all necessary access and exit rights;

2. A condition that the conveyance be subject to all valid existing rights of record;

3. An appropriate indemnification clause protecting the United States from claims arising at the patentee's use, occupancy, or occupation of the patented lands;

4. Additional terms and conditions that the authorized officer deems appropriate.

Detailed information concerning the proposed land sale, including the appraisal, planning and environmental documents, and a mineral report, are available for review at the location identified in **ADDRESSES** above.

Public comments regarding the proposed sale may be submitted in writing to the attention of the BLM Bakersfield—Manager (*see ADDRESSES* above) on or before December 17, 2010. Comments received in electronic form, such as e-mail or facsimile, will not be considered. Any adverse comments regarding the proposed sale will be reviewed by the BLM State Director or other authorized official of the Department, who may sustain, vacate, or modify this realty action in whole or in part. In the absence of timely filed objections, this realty action will become the final determination of the Department of the Interior.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.
