What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under DATES.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected Entities: Entities potentially affected by this action are those required to obtain an NPDES permit for their

point source discharges from the application of pesticides to waters of the United States. States responsible for permitting these entities are also affected.

Title: National Pollutant Discharge Elimination System (NPDES) Permits for Point Source Discharges from the Application of Pesticides to Waters of the United States (New).

ICR Numbers: EPA ICR No. 2397.01, OMB Control No. 2040-NEW.

ICR Status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This Information Collection Request (ICR) calculates the burden and costs associated with information collection and reporting activities from EPA and State NPDES general permits for point source discharges from the application of pesticides to waters of the United States. On November 27, 2006, EPA issued a final rule (hereinafter called the "2006 NPDES Pesticides Rule") clarifying circumstances in which an NPDES permit was not required to apply pesticide to, or over, including near, waters of the U.S. On January 9, 2009, the Sixth Circuit Court vacated EPA's 2006 NPDES Pesticides Rule. As a result of the Court's decision, on April 9, 2011 NPDES permits will be required for discharges to waters of the U.S. from the application of biological pesticides and chemical pesticides that leave a residue. Regulations governing permit requirements for NPDES discharges are codified at 40 CFR parts 122. This ICR includes information submitted or recorded by permittees as well as information used primarily by permitting authorities. The permitting authority will use the information to assess permittee compliance and modify/add new permit requirements as appropriate. The estimated burden in this ICR is based on EPA's proposed NPDES Pesticide General Permit (PGP). EPA published the PGP in a **Federal Register** notice on June 4, 2010 (75 FR 31775) and received over 700 public comments. EPA is reviewing the comments and will address them in the

final permit. The final ICR will reflect the final permit.

Burden Statement: The annual permittees and permitting authorities (44 states and Virgin Islands) reporting and recordkeeping burden for this collection of information is estimated to average 0.8 hours per response. Burden means the total time, effort, or financial resources expended by permittees and permitting authorities to generate, maintain, retain, disclose or provide information to, or for, a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 365,000 permittees, 45 permitting authorities (44 states and Virgin Islands).

Frequency of response: varies from once every 5 years to occasionally as needed

Estimated total average number of responses for each respondent: 3.6.

Estimated total annual burden hours: 1,033,713 hours (987,904 hrs for permittees and 45,809 hrs for permitting authorities).

Estimated total annual costs: \$51,850,723 (\$50,109,969 for permittees and \$1,740,754 for permitting authorities). This includes an estimated labor burden cost of \$51,850,723 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

Change in the Estimates: This is a new ICR. The burden from this ICR will be consolidated in the existing ICR for the NPDES Program (ICR Number 0229.19, OMB Number 2040-0004) during the next standard renewal cycle. The current annual burden in OMB's inventory for the existing NPDES Program ICR is 30,943,308 hours. This ICR will add 1,033,713 hours, increasing the burden by 3.3%.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend this ICR as appropriate. EPA will also revise the burden estimates based on the final PGP. The final ICR package will then be submitted to OMB for review and

approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: October 27, 2010.

Acting Director, Office of Wastewater Management.

Notice of Intent To Suspend Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice, pursuant to section 6(f)(2) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), publishes a Notice of Intent to Suspend issued by EPA pursuant to section 3(c)(2)(B) of FIFRA. The Notice of Intent to Suspend was issued following the Agency's issuance of a Data Call-In notice (DCI), which required the registrants of the affected pesticide products listed in Table 1, containing a certain pesticide active ingredient, to take appropriate steps to secure the data, as listed in Table 2, and following the registrant's failure to submit these data or to take other appropriate steps to secure the required data. The subject data were determined to be required to maintain in effect the existing registrations of the affected products. Failure to comply with the data requirements of a DCI is a basis for suspension of the affected registrations under section 3(c)(2)(B) of FIFRA.

DATES: Each Notice of Intent to Suspend included in this **Federal Register** notice will become a final and effective suspension order automatically by operation of law 30 days after the date of the registrant's receipt of the mailed Notice of Intent to Suspend, or 30 days after the date of publication of this notice in the **Federal Register** if the mailed Notice of Intent to Suspend is returned to the Administrator as undeliverable, if delivery is refused, or if the Administrator otherwise is unable to accomplish delivery to the registrant
