SUPPLEMENTARY INFORMATION: The Chemical Sector-Specific Agency, within the DHS/NPPD/IP/SSA EMO, provides an online voluntary training program to improve security in the chemical industry sector. Information is automatically collected in a computer database as result of individuals engaging in the training. Explicit reporting or recordkeeping is not required. The training is designed for the general chemical facility employee. U.S. chemical industry direct employment is about 850,000 (2009 per American Chemistry Council); approximately 400,000 employees are estimated as potential participants. Estimated duration in the first year to complete the registration, training, and survey is 60 minutes, and less if individuals complete refresher training in succeeding years. Minimal participation data is collected as trainees complete the online exercises. Upon completion, a Certificate of Completion is generated at the trainee's computer work station, printed, and optionally e-mailed to a facility supervisor. DHS will monitor program participation, success in training, and basic distribution variables submitted upon registration.
