

the Public Health Service Act, as amended.

HRSA collects data in the UDS which are used to ensure compliance with legislative mandates and to report to Congress and policymakers on program accomplishments. To meet these objectives, BPHC requires a core set of data collected annually that is appropriate for monitoring and

evaluating performance and reporting on annual trends. The UDS will be revised in several ways. Certain data elements are added for staffing and utilization and for diagnoses, services, and tests. Specifications for current clinical measures are revised to align with those of national standard setting organizations. Revenue sources are updated to include new federal revenue

sources. A limited number of questions are asked about Electronic Health Record (EHR) reporting capabilities. Also, a limited number of clinical measures will be added consistent with identified national priorities. These new measures are included in the UDS data collection request in order to allow advance time for health centers to change data collection systems.

ESTIMATES OF ANNUALIZED REPORTING BURDEN ARE AS FOLLOWS

Type of report	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours
Universal report	1,181	1	1,181	71	83,851
Grant report	328	1	328	18	5,904
Total	1,181	1,509	89,755

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to the desk officer for HRSA, either by e-mail to: OIRA_submission@omb.eop.gov or by fax to 202-395-6974. Please direct all correspondence to the "attention of the desk officer for HRSA."
