

of American Samoa, Guam, or the Commonwealth of the Northern Mariana Islands (CNMI), as described below.

During the closure, a U.S. fishing vessel may not retain on board, transship, or land bigeye tuna captured by longline gear in the Convention Area, except that any bigeye tuna already on board a fishing vessel upon the effective date of the restrictions may be retained on board, transshipped, and landed, provided that they are landed within 14 days of the start of the closure, that is, by December 6, 2010. This 14-day landing requirement does not apply to a vessel that has declared to NMFS, pursuant to 50 CFR 665.803(a), that the current trip type is shallow-setting.

Furthermore, bigeye tuna caught by longline gear may be retained on board, transshipped, and landed if the fish are caught by a vessel registered for use under a valid NMFS-issued American Samoa Longline Limited Access Permit or if they are landed in American Samoa, Guam, or the CNMI. In either of these two cases, however, the following conditions must be met:

(1) The bigeye tuna are not caught in the portion of the U.S. Exclusive Economic Zone (EEZ) around the Hawaiian Archipelago;

(2) Such retention, transshipment, and/or landing is in compliance with applicable laws and regulations; and

(3) The bigeye tuna are landed by a U.S. fishing vessel operated in compliance with a valid permit issued under 50 CFR 660.707 or 665.801.

During the closure, a U.S. vessel is also prohibited from transshipping bigeye tuna caught in the Convention Area by longline gear to any vessel other than a U.S. fishing vessel operated with a valid permit issued under 50 CFR 660.707 or 665.801.

The catch limit and this closure do not apply to bigeye tuna caught by longline gear outside the Convention Area, such as in the eastern Pacific Ocean. To ensure compliance with the restrictions related to bigeye tuna caught by longline gear in the Convention Area, however, the following requirements apply during the closure period:

(1) A U.S. fishing vessel may not be used to fish with longline gear both inside and outside the Convention Area during the same fishing trip, with the exception of a fishing trip that is in progress on November 22, 2010. In that case, the catch of bigeye tuna must be landed by December 6, 2010; and

(2) If a U.S. vessel is used to fish using longline gear outside the Convention Area and the vessel enters the Convention Area at any time during the same fishing trip, the longline gear on the fishing vessel must be stowed in a

manner so as not to be readily available for fishing while the vessel is in the Convention Area. Specifically, the hooks, branch or dropper lines, and floats used to buoy the mainline must be stowed and not available for immediate use, and any power-operated mainline hauler on deck must be covered in such a manner that it is not readily available for use.

The above two additional prohibitions do not apply to the following vessels:

(1) Vessels on declared shallow-setting trips pursuant to 50 CFR 665.803(a); and

(2) Vessels registered for use under valid American Samoa Longline Limited Access Permits and vessels landing their bigeye tuna catch in American Samoa, Guam, or the CNMI, so long as these vessels conduct fishing activities in accordance with the conditions described above, that is, the bigeye tuna were not caught in the EEZ around the Hawaiian Archipelago, the retention, transshipment, and/or landing is in compliance with applicable laws and regulations, and the bigeye tuna are landed by a vessel that has a valid permit issued under 50 CFR 660.707 or 665.801.

Classification

There is good cause to waive prior notice and opportunity for public comment pursuant to 5 U.S.C. 553(b)(B). This action is based on the best available information and is necessary for the conservation and management of bigeye tuna. Compliance with the notice and comment requirement would be impracticable and contrary to the public interest, since NMFS would be unable to ensure that the 2010 bigeye tuna catch limit is not exceeded. The annual catch limit is an important mechanism to ensure that the U.S.A. complies with its international obligations in preventing overfishing and managing the fishery at optimum yield. Moreover, NMFS previously solicited public comments on the rule that established the catch limit (74 FR 63999, December 7, 2009). For the same reasons, there is good cause to establish an effective date less than 30 days after date of publication of this notice.

This action is required by § 300.224(d) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 6901 *et seq.*

RIN 0648-XAO21

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific ocean perch in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area. This action is necessary to fully use the 2010 total allowable catch of Pacific ocean perch specified for the Bering Sea subarea of the Bering Sea and Aleutian Islands management area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), November 4, 2010, through 2400 hrs, A.l.t., December 31, 2010. Comments must be received at the following address no later than 4:30 p.m., A.l.t., November 24, 2010.

ADDRESSES: Send comments to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, *Attn:* Ellen Sebastian. You may submit comments, identified by 0648-XAO21, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal eRulemaking Portal Web site at <http://www.regulations.gov>.

- *Mail:* P.O. Box 21668, Juneau, AK 99802.

- *Fax:* (907) 586-7557.

- *Hand delivery to the Federal Building:* 709 West 9th Street, Room 420A, Juneau, AK.

All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (*e.g.*, name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

NMFS will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). Attachments to electronic

comments will be accepted in Microsoft Word, Excel, WordPerfect, or Adobe portable document file (pdf) formats only.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands management area (BSAI) exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands management area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed the directed fishery for Pacific ocean perch (POP) in the Bering Sea subarea of the BSAI under § 679.20(d)(1)(iii) on January 1, 2010 (75 FR 11778, March 12, 2010).

NMFS has determined that approximately 2,260 metric tons of POP remain in the directed fishing allowance. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and

(a)(2)(iii)(D), and to fully utilize the 2010 total allowable catch of POP in the Bering Sea subarea of the BSAI, NMFS is terminating the previous closure and is opening directed fishing for POP in Bering Sea subarea of the BSAI. This will enhance the socioeconomic well-being of harvesters dependent upon POP in this area. The Administrator, Alaska Region considered the following factors in reaching this decision: (1) The current catch of POP in the BSAI and, (2) the harvest capacity and stated intent on future harvesting patterns of vessels participating in this fishery.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B), as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of POP in the Bering

Sea subarea of the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of November 3, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow the fishery for POP in the Bering Sea subarea of the BSAI to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until November 19, 2010.

This action is required by § 679.20 and § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 4, 2010.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
