SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for Cape Romain NWR. We started this process through a notice in the **Federal Register** on January 3, 2007 (72 FR 141).

Established in 1932 as a migratory bird refuge, Cape Romain NWR encompasses a 22-mile segment of the southeast Atlantic coast. The refuge contains 66,267 acres and consists of barrier islands, salt marshes, intricate coastal waterways, sandy beaches, fresh and brackish water impoundments, and maritime forests. Points of interest include Bulls Island, Cape Island, and Lighthouse Island. Two lighthouses, though no longer operational, still stand on Lighthouse Island. The refuge's original objectives were to conserve in public ownership habitat for waterfowl, shorebirds, and resident species. In recent years, objectives have expanded to include managing endangered species, protecting the 28,000-acre Class 1 Wilderness Area, and conserving the Bulls Island and Cape Island forests and associated diverse plant communities. Currently, the refuge is actively working to aid in the recovery of the threatened loggerhead sea turtle. Recognizing the high migratory bird benefits and recreational opportunities served by the lands and waters of the refuge, Cape Romain NWR was established under the Migratory Bird Conservation Act, the Fish and Wildlife Act, and the Refuge Recreation Act, thus outlining the following primary purposes of these lands and waters:

- "For use as an inviolate sanctuary, or for any other management purpose, for migratory birds" (16 U.S.C. 715d; Migratory Bird Conservation Act);
- "to conserve and protect migratory birds * * * and other species of wildlife that are listed * * * as endangered species or threatened species and to restore or develop adequate wildlife habitat" (16 U.S.C. 715i; Migratory Bird Conservation Act);
- "for the development, advancement, management, conservation, and protection of fish and wildlife resources" (16 U.S.C. 742f(a)(4)) "for the benefit of the United States Fish and
