
Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protesters parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

Department of Energy
Federal Energy Regulatory Commission
[Project No. 1005-011]
City of Boulder, CO; Notice of Availability of Environmental Assessment

November 5, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has prepared an environmental assessment (EA) for an application filed by City of Boulder, Colorado (licensee) on March 10, 2009, requesting Commission approval to exempt its currently licensed Boulder Canyon Hydroelectric Project from the licensing requirements of Part I of the Federal Power Act (FPA) and to surrender its license for the project. The project is located on the Middle Boulder Creek, in Boulder County, Colorado. The licensee requests to surrender the following licensed project features: (1) The Barker Reservoir; (2) the Barker Dam; (3) the outlet structure; (4) the concrete tunnel; (5) the valve house; (6) the concrete Barker gravity pipeline; (7) the Kossler Reservoir, including the South Dam, the Northeast Dam, and the West Dam; (8) the concrete outlet structure, including the trash screens and a gate; and (9) the steel penstock. The licensee states that the exempted project would consist of the existing powerhouse containing one generating unit having an installed capacity of 10 MW and appurtenant facilities. The licensee estimates that the project would have an average annual generation of 11.6 megawatt-hours that would be sold to a local utility.

The EA evaluates the environmental impacts that would result from approving the licensee’s proposal for surrender of its project license and conversion to a conduit exemption. The EA finds that granting surrender of the license and issuing the exemption for the Boulder Canyon Hydroelectric Project would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at http://www.ferc.gov or toll-free at 1–866–208–3372, or for TTY, (202) 502–8659.

Kimberly D. Bose,
Secretary.

Department of Energy
Federal Energy Regulatory Commission
[Project No. 2157-188]
Public Utility District No. 1 of Snohomish County, WA; Notice of Availability of Final Environmental Assessment

November 4, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission or FERC’s) regulations, 18 Code of Federal Regulations (CFR) part 380 (Order No. 486, 52 Federal Register [FR] 47879), the Office of Energy Projects has reviewed Public Utility District No. 1 of Snohomish County’s application for license for the Henry M. Jackson Hydroelectric Project (FERC Project No. 2157–188), located on the Sultan River 20 miles east of the city of Everett, Snohomish County. The project currently underlies a total of 10.9 acres of federal lands in the Mount Baker-Snoqualmie National Forest administered by the U.S. Department of Agriculture, Forest Service.

Staff prepared a final environmental assessment (EA), which analyzes the potential environmental effects of relicensing the project, and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at http://www.ferc.gov or toll-free at 1–866–208–3372, or for TTY, (202) 502–8659.

Kimberly D. Bose,
Secretary.

Environmental Impacts Statements; Notice of Availability

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA’s comment letters, in the Federal Register. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: http://www.epa.gov/compliance/nepa/eisdata.html. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA’s comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the Federal Register.

Amended Notices

EIS No. 20100386, Draft EIS, BLM, UT, Uinta Basin Natural Gas Development Project, To Develop Oil and Natural Gas Resources within the Monument Butte-Red Wash and West Tavaputs Exploration and Developments Area, Applications for Permit of Drill and Right-of-Way Grants, Uintah and Duchesne Counties, UT, Comment Period Ends: 11/30/2010, Contact: Mark Wimmer 435–781–4464.

Public Water System Supervision
Program Revision for the State of Montana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with the provisions of section 1413 of the Safe Drinking Water Act (SDWA), 42 U.S.C. 300g–2, and 40 CFR 142.13, public notice is hereby given that the State of Montana has revised its Public Water System Supervision (PWSS) Primary Program by adopting federal regulations for the Lead and Copper Rule Short Term Regulatory Revisions which correspond to the National Primary Drinking Water Regulations (NPDRW) in 40 CFR part 141 and 142. The EPA has completed its review of these revisions in accordance with the SDWA and proposes to approve Montana’s primacy revisions for the above stated Rule. Today’s approval does not extend to public water systems in Indian country, as defined in 18 U.S.C. 1151. Please see SUPPLEMENTARY INFORMATION, Item B.

DATES: Any member of the public may request a public hearing on this determination by December 13, 2010. Please see SUPPLEMENTARY INFORMATION, Item C, for details. Should no timely and appropriate request for a hearing be received, and the Regional Administrator (RA) does not elect to hold a hearing on his own motion, this determination shall become effective December 13, 2010. If a hearing is granted, then this determination shall become effective until such time following the hearing as the RA issues an order affirming or rescinding this action.

ADDRESSES: Requests for a public hearing shall be addressed to: James B. Martin, Regional Administrator, c/o Brennan Rockstahler (8P–W–DW), U.S. EPA, Region 8, 1595 Wynkoop Street, Denver, CO 80202–1129.
