Agency Information Collection
Activities: Proposed Collection;
Comment Request

In compliance with section
3506(c)(2)(A) of the Paperwork
Reduction Act of 1995 concerning
opportunity for public comment on
proposed collections of information, the
Substance Abuse and Mental Health
Services Administration will publish
periodic summaries of proposed
projects. To request more information
on the proposed projects or to obtain a
copy of the information collection
plans, call the SAMHSA Reports
Clearance Officer on (240) 276–1243.
Comments are invited on: (a) Whether
the proposed collections of information
are necessary for the proper
performance of the functions of the
agency, including whether the
information shall have practical utility;
(b) the accuracy of the agency’s estimate
of the burden of the proposed collection
of information; (c) ways to enhance the
quality, utility, and clarity of the
information to be collected; and (d)
ways to minimize the burden of the
collection of information on
respondents, including through the use
of automated collection techniques or
other forms of information technology.

Proposed Project: National Suicide
Prevention Lifeline—Crisis Center
Survey—NEW

The Substance Abuse and Mental
Health Services Administration’s
(SAMHSA), Center for Mental Health
Services funds a National Suicide
Prevention Lifeline Network, a system
of toll-free telephone numbers that
routes calls from anywhere in the
United States to a network of more than
147 certified crisis centers that can link
callers to local emergency, mental
health, and social service resources. The
technology permits calls to be directed
immediately to a suicide prevention
worker who is geographically closest to
the caller.

Through its grantee which is
administering the National Suicide
Prevention Lifeline Network, SAMHSA
developed a Crisis Center Survey in an
effort to learn more about the capacities,
skills, and unmet needs of the crisis
centers involved in the Network. The
completed Surveys will inform the
Network’s planning around
technological capacity, network
recruitment strategies, training,
marketing, and other network resource
development activities. The goal of this
effort is to ensure that the telephonic
routing system remains accurate,
enhance quality services provided by
networked crisis centers, increase
service accessibility to people at risk for
suicidal behavior, and optimize public
health efforts to prevent suicide and
suicidal behavior.

All 147 networked crisis centers will
complete the Web-based Crisis Center
Survey annually. The Survey requests
information about organizational
structure, staffing, scope of services, call
center operations, quality assurance,
community outreach/marketing,
telephone equipment, data collection,
and technical assistance needs.

The estimated annual response
burden to collect this information is as
follows:

<table>
<thead>
<tr>
<th>Instrument</th>
<th>Number of respondents</th>
<th>Responses/respondent</th>
<th>Total number of responses</th>
<th>Burden/response (hours)</th>
<th>Annual burden (hours)</th>
</tr>
</thead>
<tbody>
