

demonstrate evidence of its quality assessment and performance improvement program (QAPI) program for review by CMS.

- To meet the requirements at § 482.21(a)(1), DNVHC revised its standards to ensure QAPI is an ongoing program that shows measurable improvements in indicators for which there is evidence that it will improve health outcomes and identify and reduce medical errors.

- To meet the requirements at § 482.21(a)(2), DNVHC revised its standards to ensure the hospital's QAPI program includes aspects of performance that assess process of care, hospital service, and operations.

- To meet the requirements at § 482.21(c)(2), DNVHC revised its standards to address the hospital's responsibility to, among other things, implement preventive actions and mechanisms that include feedback and learning throughout the hospital as part of its performance improvement activities.

- To meet the requirements at § 482.21(d)(2), DNVHC revised its standards to clarify that a hospital may chose, as one of its quality initiatives, to develop and implement an information technology system to improve patient safety and quality.

- To meet the requirements at § 482.23(c), DNVHC revised its standards to ensure all drugs and biologicals are administered under the orders of a practitioner responsible for the care of the patient as specified at § 482.12(c).

- To meet the requirements at § 482.23(c)(3), DNVHC revised its standards to include the requirement that blood transfusions and intravenous medications must be administered in accordance with State laws and approved medical staff policies and procedures.

- To meet the requirements at § 482.23(c)(4), DNVHC revised its standards to require blood transfusion reactions be reported immediately to the attending physician.

- To meet the requirements at § 482.30(a)(2), DNVHC revised its standards to address situations where CMS has determined that the utilization review (UR) procedures established by a State under title XIX of the Act are superior to those listed in 42 CFR part 482, thus requiring hospitals in that State to meet the utilization control requirements at § 456.50 through § 456.245 of this chapter of the regulations.

- To meet the requirements at § 482.30(c)(4) and § 482.30(e)(2), DNVHC revised its standards to require

that the CAH review cases where the patient's length of stay exceeds the mean length of stay for the applicable diagnostic-related group (DRG) and the hospitals charges for covered services exceed the DRG payment rate.

- To meet the requirements at § 482.30(d)(1)(i) through § 482.30(d)(3), DNVHC revised its standards to ensure determinations regarding admissions or continued stays are made by the practitioner responsible for the patient as specified in § 482.12(c).

- To meet the requirements at § 482.30(e)(ii), DNVHC revised its standards to require that the utilization review committee conduct a periodic review of each current inpatient receiving hospital services during a continuous period of extended duration for hospitals not paid under the prospective payment system.

- To meet the requirements at § 482.42(a)(2), DNVHC revised its standards to require the infection control officer maintain a log of incidents related to infections and communicable diseases.

- To meet the requirements at § 482.43(e), DNVHC revised its standards to require that the CAH periodically reevaluate its discharge planning process.

B. Term of Approval

Based on the review and observations described in section III. of this final notice, we have determined that DNVHC's requirements for CAHs meet or exceed our requirements. Therefore, we approve DNVHC as a national accreditation organization for CAHs that request participation in the Medicare program, effective December 23, 2010, through December 23, 2014.

V. Collection of Information Requirements

National Institutes of Health

Office of the Director, National Institutes of Health; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of a meeting of the Recombinant DNA Advisory Committee.

The meeting will be open to the public, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

Name of Committee: Recombinant DNA Advisory Committee.

Date: December 7-8, 2010.

Time: December 7, 2010, 12 p.m. to 6 p.m.

Agenda: The NIH Recombinant DNA Advisory Committee will review selected human gene transfer protocols, an application to certify a new host-vector system for *K. lactis* under Appendix I of the NIH Guidelines for Research Involving Recombinant DNA Molecules and discuss related data management activities. Please check the meeting agenda at http://oba.od.nih.gov/rdna_rac/rac_meetings.html.

Place: Hilton Washington/Rockville, 1750 Rockville Pike, Rockville, MD 20852.

Time: December 8, 2010, 8 a.m. to 12:30 p.m.

Agenda: The NIH RAC will discuss selected human gene transfer protocols, and related data management activities. Please check the meeting agenda at http://oba.od.nih.gov/rdna_rac/rac_meetings.html for more information.

Place: Hilton Washington/Rockville, 1750 Rockville Pike, Rockville, MD 20852.

Contact Person: Chezelle George, Office of Biotechnology Activities, Office of Science Policy/OD, National Institutes of Health, 6705 Rockledge Drive, Room 750, Bethesda, MD 20892. 301-496-9838. georgec@od.nih.gov.

Information is also available on the Institute's/Center's home page: <http://oba.od.nih.gov/rdna/rdna.html>, where an agenda and any additional information for the meeting will be posted when available.

OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592, June 11, 1980) requires a statement concerning the official government programs contained in the Catalog of Federal Domestic Assistance. Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers virtually every NIH and Federal research program in which DNA recombinant molecule techniques could be used, it has been determined not to be cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every Federal program would be included as many Federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the Catalog of Federal Domestic Assistance are affected.
