**Certain Orange Juice From Brazil;
Notice of Extension of Time Limits for
Preliminary Results of Antidumping
Duty Administrative Review**

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

DATES: *Effective Date:* November 16,
2010.

FOR FURTHER INFORMATION CONTACT:
Blaine Wiltse or Hector Rodriguez, AD/
CVD Operations, Office 2, Import
Administration, International Trade
Administration, U.S. Department of
Commerce, 14th Street and Constitution
Avenue, NW., Washington, DC 20230;
telephone: (202) 482-6345 or (202) 482-
0629, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On April 27, 2010, the Department of Commerce (the Department) published a notice of initiation of administrative review of the antidumping duty order on certain orange juice from Brazil. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 75 FR 22107 (Apr. 27, 2010). The period of review is March 1, 2009, through February 28, 2010, and the preliminary results are currently due no later than December 1, 2010. The review covers four producers/exporters of the subject merchandise to the United States.

Extension of Time Limit for Preliminary Results

Pursuant to section 751(a)(3)(A) of Tariff Act of 1930, as amended (the Act), the Department shall make a preliminary determination in an administrative review of an antidumping order within 245 days after the last day of the anniversary month of the date of publication of the order. Section 751(a)(3)(A) of the Act further provides, however, that the Department may extend the 245-day period up to 365 days if it determines it is not practicable to complete the review within the foregoing time period. We determine that it is not practicable to complete this administrative review within the time limits mandated by section 751(a)(3)(A) of the Act because we require more time to issue supplemental questionnaires to certain of the respondents and analyze their responses. Therefore, we have fully

extended the deadline for completing the preliminary results until March 31, 2011. The deadline for the final results of the review continues to be 120 days after the publication of the preliminary results.

This extension notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: November 9, 2010.

Susan H. Kubbach,

*Acting Deputy Assistant Secretary for
Antidumping and Countervailing Duty
Operations.*

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric
Administration**

[Docket No.101101550-0550-01; I.D. GF001]

**New NOAA Cooperative Institutes
(CIs): (1) A Cooperative Institute To
Improve Mesoscale and Stormscale
High Impact Weather Forecasts,
Watches, and Warnings Through the
Use of, and Enhancement of, Weather
Radar and (2) A Cooperative Institute
To Support NOAA Northwest Research
Facilities in the Area of Marine
Resources**

AGENCY: Oceanic and Atmospheric
Research (OAR), National Oceanic and
Atmospheric Administration (NOAA),
Department of Commerce.

ACTION: Notice of funding availability.

SUMMARY: The NOAA Office of Oceanic and Atmospheric Research (OAR) and the National Marine Fisheries Service (NMFS) invite applications for: (1) A cooperative institute (CI) to improve mesoscale and stormscale high impact weather forecasts, watches, and warnings through the use of, and enhancement of, weather radar and (2) a CI to support NOAA research facilities in the northwest U.S. in the area of marine resources. Applicants should review the CI Interim Handbook prior to preparing a proposal for this announcement (<http://www.nrc.noaa.gov/ci>).

DATES: Proposals must be received by OAR no later than February 11, 2011, 5 p.m., E.T. For applications submitted through Grants.gov, a date and time receipt indication will form the basis for determining timeliness. Proposals must be validated by Grants.gov in order to be considered timely. For those applicants who do not have access to the Internet, one signed original and two hard copy applications must be received by NOAA

at the following address: NOAA/OAR, Attn: Dr. John Cortinas, 1315 East West Highway, Room 11326, Silver Spring, Maryland 20910. Use of U.S. mail or another delivery service must be documented with a receipt. No facsimile or electronic mail proposal submissions will be accepted. Proposals submitted after 5 p.m., E.T., February 11, 2011 will not be considered. (Note that late-arriving hard copy proposals provided to a delivery service on or before 5 p.m., E.T., February 11, 2011 will be accepted for review if the applicants can document that the proposals were provided to the guaranteed delivery service by the specified closing date and time and if the proposals are received by OAR no later than 5 p.m., two business days following the closing date.) October 1, 2011 should be used as the proposed start date on proposals.

ADDRESSES: The standard application package is available at <http://www.grants.gov>. For applicants without Internet access, an application package may be secured by contacting Dr. John Cortinas, 1315 East West Highway, Room 11326, Silver Spring, Maryland 20910; telephone (301) 734-1090.

FOR FURTHER INFORMATION CONTACT: Dr. John Cortinas, 1315 East-West Highway, Room 11326, Silver Spring, Maryland 20910; telephone (301) 734-1090; E-mail: John.Cortinas@noaa.gov.

Request for Applications

The NOAA Office of Oceanic and Atmospheric Research (OAR) and the National Marine Fisheries Service (NMFS) invites applications for two cooperative institutes: (1) CI to improve mesoscale and stormscale high impact weather forecasts, watches, and warnings through the use of, and enhancement of, weather radar and (2) a CI to support NOAA research facilities in the northwest U.S. in the area of marine resources.

Generally, a CI is a NOAA-supported, non-Federal organization that has established an outstanding research program in one or more areas that are relevant to the NOAA mission "to understand and predict changes in the Earth's environment and conserve and manage coastal and marine resources to meet our Nation's economic, social, and environmental needs." CIs are established at research institutions with outstanding graduate degree programs in NOAA-related sciences. CIs provide significant coordination of resources among all non-government partners and promote the involvement of students and post-doctoral scientists in NOAA-funded research.
