NUCLEAR REGULATORY COMMISSION

[NRC–2010–0354]

Withdrawal of Regulatory Guide 1.39

AGENCY: Nuclear Regulatory Commission.

SUPPLEMENTARY INFORMATION:

I. Introduction

The current revisions of RG 1.28 and RG 1.33 adequately address the related Quality Assurance Program with the latest ANSI/ASME standard NQA–1, which conforms to the requirements of 10 CFR part 50, Appendix B, “Quality Assurance Program Criteria for Nuclear Power Plants and Fuel Reprocessing Plants.”

II. Further Information

The withdrawal of Regulatory Guide 1.39 does not alter any prior or existing licensing commitments based on its use. The guidance provided in this regulatory guide is no longer necessary. Regulatory guides may be withdrawn when their guidance no longer provides useful information, or is superseded by technological, congressional actions, or other events.

Guides are revised for a variety of reasons and the withdrawal of a regulatory guide should be thought of as the final revision of the guide. Although a regulatory guide is withdrawn, current licensees may continue to use it, and withdrawal does not affect any existing licenses or agreements. Withdrawal means that the guide should not be used for future NRC licensing activities. Changes to existing licenses would be accomplished using other regulatory products.

Regulatory guides are available for inspection or downloading through the NRC’s public Web site under “Regulatory Guides” in the NRC’s Electronic Reading Room at http://www.nrc.gov/reading-rm/dockets/ecs-c. Regulatory guides are also available for inspection at the NRC’s Public Document Room (PDR), Room O–1 F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852–2738. The PDR’s mailing address is US NRC PDR, Washington, DC 20555–0001. You can reach the staff by telephone at 301–415–4737 or 800–397–4209, by fax at 301–415–3548, and by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

Dated at Rockville, Maryland, November 5, 2010.

For the Nuclear Regulatory Commission.

John N. Ridgely,
Acting Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.

PEACE CORPS

Proposed Information Collection Renewal

ACTION: 30-day notice of submission of information collection for approval from the Office of Management and Budget; Comment request.

SUMMARY: The Peace Corps has submitted an information collection request to the Office of Management and Budget (OMB) for extension under the provisions of the Paperwork Reduction Act of 1995. The information collection requests an extension, without change, of a currently approved information collection. This notice invites the public to comment on the renewal of the Peace Corps’ Confidential Reference Form (OMB Control No. 0420–0006). Peace Corps invites comments on whether the proposed collection of information is necessary for proper performance of the functions of the Peace Corps, including whether the information will have practical use; the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the information to be collected; and, ways to minimize...
