On October 5, 2010 the Commission sought emergency processing from the Office of Management and Budget (OMB) of this new information collection. The Commission received OMB approval on October 21, 2010. Emergency OMB approvals are only granted for six months. In order to keep the OMB approval from lapsing, the Commission is now conducting the regular PRA processes to obtain the full three year clearance from them. The Commission will submit this extension to the OMB after this 60 day comment period.

On September 28, 2010, consistent with the vision outlined in the National Broadband Plan (NBP), the Federal Communications Commission (FCC) released a *Sixth Report and Order (Sixth R&O)*, FCC 10–175, upgrading and modernizing the schools and libraries universal services support program (also known as the E-rate program) to bring fast, affordable Internet access to schools and libraries across the country, and eliminating rules that no longer serve the intended purpose. These changes will help ensure that America's students can learn and develop the high-tech skills necessary to compete in the 21st century economy.

As part of the *Sixth R&O*, the Commission launched a pilot program—EDU 2011 Pilot Program—that supports off-campus wireless Internet connectivity for mobile learning devices. Specifically, the Commission established this trial program to investigate the merits and challenges of wireless off-premises connectivity services, and to help the Commission determine whether and how those services should ultimately be eligible for E-rate support. The information may be used to offer E-rate support. The information requested may be used to offer E-rate support for the upcoming funding year (which starts July 1, 2011 and ends June 30, 2012) under this pilot program to fund wireless connections to a small number of selected applicants.

Specifically, to be considered for EDU 2011 Pilot Program funding, E-rate eligible applicants must have implemented or already be in the process of implementing a program to provide off-premises connectivity to students or library patrons through the use of portable wireless devices.

The application must contain the following information:

(1) A description of the current or planned program, how long it has been in operation, and a description of any improvements or other changes that would be made if E-rate funding were received for funding year 2011;

(2) Identification of the costs associated with implementing the program including, for example, costs for equipment such as e-readers or laptops, access and connection charges, teacher training, librarian training, or student/parent training;

(3) Relevant technology plans;

(4) A description of how the program complies with the Children's Internet Protection Program Act (CIPPA) and adequately protects against waste, fraud, and abuse;

(5) A copy of internal policies and enforcement procedures governing

acceptable use of the wireless device off the school's and library's premises;

(6) For schools, a description of the program's curriculum objectives, the grade levels included, and the number of students and teachers involved in the program; and

(7) For schools, any data collected on program outcomes.

Additionally, after the trial period, applicants will be required to submit a report to the Commission's Wireline Competition Bureau detailing any data collected as a result of the program and a narrative describing lessons learned from the program that would assist other schools and libraries desiring to adopt similar programs in the future.

**SUPPLEMENTARY INFORMATION:** On October 8, 2010, the Commission published (75 FR 62389) a notice of proposed statement of enforcement policy regarding communications in connection with collection of a decedent's debts ("proposed Statement") seeking comment on the overall costs, benefits, necessity, and regulatory and economic impact of the proposed Statement. Currently, the proposed Statement addresses three issues pertaining to debt collectors who attempt to collect on the debts of deceased debtors. First, the proposed Statement announces that the FTC will not bring enforcement actions for violations of Section 805(b) of the Fair Debt Collection Practices Act ("FDCPA"), 15 U.S.C. 1692c(b), against collectors who, in connection with the collection of a decedent's debt, communicate with a person who has authority to pay the decedent's debts from the assets of the decedent's estate. Second, the proposed Statement clarifies how a debt collector may locate the appropriate person with whom to discuss the decedent's debt. Third, the proposed Statement emphasizes to collectors that misleading consumers about their personal obligation to pay a decedent's debt is a violation of the FDCPA and Section 5 of the Federal Trade Commission Act ("FTC Act"), 15 U.S.C. 45. The notice designated
