SUPPLEMENTARY INFORMATION: For the purpose of publishing this notice and seeking public comment, FERC requests comments on both FERC-511 (Application for Transfer of License; OMB Control No. 1902-0069), and FERC-515 (Hydropower Licensing: Declaration of Intention; OMB Control No. 1902-0079). The associated regulations, reporting requirements, burdens, and OMB clearance numbers will continue to remain separate and distinct for FERC-511 and FERC-515.

FERC-511: The information collected under the requirements of FERC-511 is used by the Commission to implement the statutory provisions of sections 4(e)

and 8 of the Federal Power Act (FPA) (16 U.S.C. 797(e) and 801). Section 4(e) authorizes the Commission to issue licenses for the construction, operation and maintenance of reservoirs, powerhouses, and transmission lines or other facilities necessary for the development and improvement of navigation and for the development, transmission, and utilization of power.¹ Section 8 of the FPA provides that the voluntary transfer of any license can only be made with the written approval of the Commission. The information filed with the Commission is a mandatory requirement contained in the format of a written application for transfer of license, executed jointly by the parties of the proposed transfer. The transfer of a license may be occasioned by the sale or merger of a licensed hydroelectric project. It is used by the Commission's staff to determine the qualifications of the proposed transferee to hold the license, and to prepare the transfer of the license order. Approval by the Commission of transfer of a license is contingent upon the transfer of title to the properties under license, delivery of all license instruments, and a showing that such transfer is in the public interest. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Part 9.

FERC-515: The information collected under the requirements of FERC-515 is used by the Commission to implement the statutory provisions of Part I, Section 23(b) of the Federal Power Act (16 USC 817). Section 23(b) authorized the Commission to make a determination as to whether it has jurisdiction over a proposed water project² not affecting navigable waters³ but across, along, over, or in waters over which Congress has jurisdiction under its authority to regulate commerce with foreign nations and among the several States. Section 23(b) requires that any person intending to construct project works on such waters must file a declaration of their intention with the Commission. If the Commission finds the proposed project will have an impact on interstate or foreign
