

requirements as described in 10 CFR 73.55 and reflected in its current NRC-approved physical security program. By March 15, 2012, CR-3 physical security system will be in full compliance with all of the regulatory requirements of 10 CFR 73.55, as published on March 27, 2009.

4.0 Conclusion for Part 73 Schedule Exemption Request

The NRC staff has reviewed the licensee's submittals and concludes that the licensee has provided adequate justification for its request for an extension of the previously authorized implementation dates from November 15 and December 15, 2010, with regard to four specified requirements of 10 CFR 73.55, to December 15, 2011, and March 15, 2012, respectively. This conclusion is based on the NRC staff's determination that the licensee has made a good faith effort to meet the requirements in a timely manner, has sufficiently described the reason for the unanticipated delays, and has provided an updated detailed schedule with adequate justification to the additional time requested for the extension.

The long-term benefits that will be realized when the security systems upgrade is complete justify extending the full compliance date with regard to the specific requirements of 10 CFR 73.55 for this particular licensee. The security measures that CR-3 needs additional time to implement are new requirements imposed by amendments to 10 CFR 73.55, as published on March 27, 2009, and are in addition to those required by the security orders issued in response to the events of September 11, 2001. Accordingly, an exemption from the March 31, 2010, implementation date is authorized by law and will not endanger life or property or the common defense and security, and the Commission hereby grants the requested exemption.

As per the licensee's request and the NRC's regulatory authority to grant an exemption to the March 31, 2010, implementation date for the four items specified in Attachment 1 of the FPC letter dated September 8, 2010, the licensee is required to implement two items by December 15, 2011, and to implement the remaining two items by March 15, 2012. The licensee is required to be in full compliance with 10 CFR 73.55 by March 15, 2012. In achieving compliance, the licensee is reminded that it is responsible for determining the appropriate licensing mechanism (*i.e.*, 10 CFR 50.54(p) or 10 CFR 50.90) for incorporation of all necessary changes to its security plans.

In accordance with 10 CFR 51.32, "Finding of no significant impact," the Commission has previously determined that the granting of this exemption will not have a significant effect on the quality of the human environment (75 FR 69710 dated November 15, 2010).

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 15th day of November 2010.

For the Nuclear Regulatory Commission.

Joseph G. Gitter,

Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on the Medical Uses of Isotopes: Meeting Notice

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission will convene a teleconference meeting of the Advisory Committee on the Medical Uses of Isotopes (ACMUI) on December 13, 2010, to discuss: (1) Patient release following iodine-131 therapy; (2) rulemaking and implementation guidance for physical protection of byproduct material; and (3) the impacts of the draft safety culture policy statement for medical licensees. A copy of the agenda for the meeting will be available at <http://www.nrc.gov/reading-rm/doc-collections/acmui/agenda> or by contacting Ms. Ashley Cockerham using the information below.

DATES: The teleconference meeting will be held on Monday, December 13, 2010, from 1 p.m. to 4 p.m. Eastern Standard Time.

Public Participation: Any member of the public who wishes to participate in the teleconference discussion should contact Ms. Cockerham using the contact information below.

Contact Information: Ashley M. Cockerham, e-mail: ashley.cockerham@nrc.gov, telephone: (240) 888-7129.

Conduct of the Meeting

Leon S. Malmud, M.D., will chair the meeting. Dr. Malmud will conduct the meeting in a manner that will facilitate the orderly conduct of business. The following procedures apply to public participation in the meeting:

1. Persons who wish to provide a written statement should submit an electronic copy to Ms. Cockerham at the contact information listed above. All submittals must be received by December 8, 2010, and must pertain to the topic on the agenda for the meeting.

2. Questions and comments from members of the public will be permitted during the meeting, at the discretion of the Chairman.

3. The transcript will be available on the ACMUI's Web site (<http://www.nrc.gov/reading-rm/doc-collections/acmui/tr/>) on or about January 13, 2011. A meeting summary will be available on or about January 27, 2011.

This meeting will be held in accordance with the Atomic Energy Act of 1954, as amended (primarily Section 161a); the Federal Advisory Committee Act (5 U.S.C. App); and the Commission's regulations in Title 10, *U.S. Code of Federal Regulations*, Part 7.

Dated: November 15, 2010.

Andrew L. Bates,

Advisory Committee Management Officer.
