### National Highway Traffic Safety Administration

[Docket No. NHTSA-2009-0003; Notice 2]

#### General Motors Corporation, Grant of Petition for Decision of Inconsequential Noncompliance

General Motors Corporation (GM) has determined that certain Model Year 2009 Chevrolet Cobalt and Pontiac G5 passenger cars did not fully comply with paragraphs S4.3(c) and S4.3(d) of 49 CFR 571.110, Federal Motor Vehicle Safety Standard (FMVSS) No. 110, *Tire Selection and Rims, for Motor Vehicles With a GVWR of 4,536 Kilograms (10,000 pounds) or Less*. GM has filed an appropriate report pursuant to 49 CFR Part 573, *Defect and Noncompliance Responsibility and Reports*.

Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), GM has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

Notice of receipt of the petition was published with a 30-day public comment period, on 2/9/2009, in the **Federal Register** (74 FR 6453). No comments were received. To view the petition and all supporting documents log onto the Federal Docket Management System Web site at: <http://www.regulations.gov/>. Then follow the online search instructions to locate docket number "NHTSA-2009-0003."

For further information on this decision, contact Mr. John Finneran, Office of Vehicle Safety Compliance, the National Highway Traffic Safety Administration (NHTSA), Telephone (202) 366-0645, Facsimile (202) 366-5930.

Affected are approximately 6,619 model year 2009 Chevrolet Cobalt and Pontiac G5 passenger cars built from April 2008 through November 12, 2008.

Paragraph S4.3 of FMVSS No. 110 requires in pertinent part:

S4.3 Placard. Each vehicle, except for a trailer or incomplete vehicle, shall show the information specified in S4.3(a) through (g), and may show, at the manufacturer's option, the information specified in S4.3(h) and (i), on a placard permanently affixed to the driver's side B-pillar. In each vehicle without a driver's side B-pillar and with two doors on the driver's side of the vehicle opening in opposite directions, the placard shall be affixed on the forward edge of the rear side door. If the above locations do not permit the affixing of a placard that is legible, visible and prominent, the placard shall be permanently affixed to the rear edge of the driver's side door. If this location does not permit the affixing of a placard that is legible, visible and prominent, the placard shall be affixed to the inward facing surface of the vehicle next to the driver's seating position. This information shall be in the English language and conform in color and format, not including the border surrounding the entire placard, as shown in the example set forth in Figure 1 in this standard. At the manufacturer's option, the information specified in S4.3(c), (d), and, as appropriate, (h) and (i) may be shown, alternatively to being shown on the placard, on a tire inflation pressure label which must conform in color and format, not including the border surrounding the entire label, as shown in the example set forth in Figure 2 in this standard. The label shall be permanently affixed and proximate to the placard required by this paragraph. The information specified in S4.3(e) shall be shown on both the vehicle placard and on the tire inflation pressure label (if such a label is affixed to provide the information specified in S4.3(c), (d), and, as appropriate, (h) and (i)) may be shown in the format and color scheme set forth in Figures 1 and 2. \* \* \*

(c) Vehicle manufacturer's recommended cold tire inflation pressure for front, rear and spare tires, subject to the limitations of S4.3.4. For full size spare tires, the statement "see above" may, at the manufacturer's option replace manufacturer's recommended cold tire inflation pressure. If no spare tire is provided, the word "none" must replace the manufacturer's recommended cold tire inflation pressure.

(d) Tire size designation, indicated by the headings "size" or "original tire size" or "original size," and "spare tire" or "spare," for the tires installed at the time of the first purchase for purposes other than resale. For full size spare tires, the statement "see above" may, at the manufacturer's option replace the tire size designation. If no spare tire is provided, the word "none" must replace the tire size designation; \* \* \*

In its petition, GM explained that the noncompliances with FMVSS No. 110 exist due to errors in the vehicle tire and loading information placards that it affixed to the vehicles. GM explains that
