SUPPLEMENTARY INFORMATION: On September 3, 2010, NHTSA published a request for comment on one collection of information for which it intends to seek OMB approval (75 FR 54217). That notice explained that to further NHTSA's development of a national tire fuel efficiency consumer information program required under the Energy Independence and Security Act of 2007,¹ NHTSA is proposing a multi-phased consumer research project and is currently requesting comment on the first phase of that research, which will consist of qualitative focus group market research and tire retailer interviews. On September 27, 2010, NHTSA published an amended request for comment with regards to focus group location, testing for the impact of basing a tire fuel efficiency rating on rolling resistance coefficient (RRC) vs. rolling resistance force (RRF), and testing for the recognition of existing labeling. (75 FR 59319)

NHTSA has recently placed in the docket for this notice draft documents that may assist commenters in elaborating on NHTSA's proposed plan. These documents include a summary of the focus group methodology, screening criteria of focus group participants, the draft focus group discussion guide, the proposed labels that will be shown and discussed, and the tire retailer interview discussion guide.

NHTSA notes that comments have already been sought on and a public meeting has already been held on a draft research plan for the consumer research that is the subject of this collection of information.² The relevance and poignancy of stakeholders' comments may be enhanced by reviewing that draft research plan and comments received in response to the draft research plan and public meeting, as well as comments already received in response to the original request for comments.

Issued on: November 18, 2010.

Senior Associate Administrator, Policy and Operations.

Commercial Space Transportation Advisory Committee—Public Teleconference

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Commercial Space Transportation Advisory Committee Teleconference.

SUMMARY: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 2), notice is hereby given of a teleconference of the Space Transportation Operations Working Group (STOWG) of the Commercial Space Transportation Advisory Committee (COMSTAC). The teleconference will take place on Wednesday, December 8, 2010, starting at 11 a.m. Eastern Standard Time. Individuals who plan to participate should contact Susan Lender, DFO, (the Contact Person listed below) by phone or e-mail for the teleconference call in number.

The proposed agenda for this teleconference is to continue the discussion started during the October 6, 2010, working group meeting. This discussion will include looking at the orbital debris questions asked by the FAA; continuing the group's review of the Concept of Operation for Global Space Vehicle Debris Threat Management Report, and updating the list of top issues that should require the working group's attention.

Interested members of the public may submit relevant written statements for the COMSTAC working group members to consider under the advisory process. Statements may concern the issues and agenda items mentioned above or additional issues that may be relevant for the U.S. commercial space transportation industry. Interested
