

potential number of program respondents is approximately 3,000.

However, these programs will be reporting data on outbreaks, not their programs or personnel. It is not possible to determine exactly how many outbreaks will occur in the future, nor where they will occur. However, we can estimate, based on existing data that a maximum of 1,400 foodborne illness outbreaks will occur annually. Only programs in the jurisdictions in which these outbreaks occur would report to NVEAIS. Consequently, we have based our respondent burden estimate on the

number of outbreaks likely to occur each year. Assuming each outbreak occurs in a different jurisdiction, there will be one respondent per outbreak. Each respondent will respond only once per outbreak investigated.

There are two activities for which we need to estimate burden for these programs. The first is entering all requested environmental assessment data into NVEAIS. This will be done once for each outbreak. This will take approximately 120 minutes per outbreak.

The second activity requiring a burden estimate is the manager interview that will be conducted at each establishment associated with an outbreak. Most outbreaks are associated with only one establishment; however, some are associated with multiple establishments. We estimate that a maximum average of 4 manager interviews will be conducted per outbreak. Each interview will take about 20 minutes.

The total estimated annual burden is 4,667 hours (see Table). There is no cost to the respondents other than their time.

ESTIMATED ANNUAL BURDEN HOURS

Respondents	Data collection activity/form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Food safety program personnel	Reporting environmental assessment data into electronic system.	1,400	1	2
Food safety program personnel	Manager interview	1,400	4	20/60

This notice also provides additional information about ANA's plan for administering the programs.

DATES: The deadline for receipt of comments is 30 days from the date of publication in the **Federal Register**.

ADDRESSES: Comments in response to this notice should be addressed to Lillian Sparks, Commissioner, Administration for Native Americans, 370 L'Enfant Promenade, SW., Mail Stop: Aerospace 2—West, Washington, DC 20447. FOR FURTHER INFORMATION CONTACT:

Kathy Killian, Program Specialist, (877) 922-9262.

SUPPLEMENTARY INFORMATION: Section 814 of NAPA, as amended, requires ANA to provide notice of its proposed interpretive rules, general statements of policy, and rules of agency organization, procedure, or practice. The proposed clarifications, modifications, and new text will appear in the FY 2011 FOAs: SEDS, SEDS—TG, SEDS—AFI, Language P&M, Language—EMI, and ERE. This notice serves to fulfill this requirement.

A. Funding Opportunity Announcements

1. Social and Economic Development Strategies (SEDS)

In FY 2011, ANA will combine the SEDS and SEDS—Special Initiative (SEDS—SI) FOAs from FY 2010 into one SEDS FOA. The SEDS FOA will include all program areas of interest from the previous FOAs which address Social Development, Economic Development, and Strengthening Families. Governance projects will be addressed in a separate FOA (see SEDS—TG, below). The SEDS FOA will include two funding ranges with the higher funding amount being the disqualification factor for applications (see Section C of this Notice for more information on funding ranges). Furthermore, through the SEDS FOA, ANA will fund project proposals from Tribes to prepare applications for Federal recognition. Tribes will only be allowed to receive funding for this priority area once, as per the funding restriction which states, "ANA does not fund projects that are essentially identical or similar in whole or in part to previously funded projects proposed by the same applicant or activities or projects proposed by a consortium that duplicate activities for which any consortium member also receives funding from ANA." This is a return to the ANA priority of the 1990s. (Legal authority: Section 803(a) of NAPA, as amended.)

2. SEDS—Tribal Governance (TG)

In FY 2011 ANA will introduce SEDS—TG to fund tribal governance projects. These types of projects were formerly funded under SEDS. ANA will expand the governance priority to emphasize projects that strengthen the internal capacity and infrastructure of tribal governments to increase services

provided to children and families. The FOA will also emphasize increasing the tribal government's ability to exercise local control and decision making over their resources. ANA is particularly interested in projects designed to develop strong linkages between social services, health programs, and schools serving Native children. Program areas of interest will be expanded to include:

(1) *Interoperability:* Promote program coordination among human and social service programs for tribal communities to strengthen the programs they provide to their children, youth, and families.

(2) *Comprehensive Strategies:* Develop comprehensive intergovernmental strategies involving tribal, State and Federal governments to meet the needs of tribal children and youth.

(3) *Self-Governance:* Build the capacity and infrastructure of tribal governments to enter into self-governance compacts.

ANA believes this FOA will encourage Tribes and Native communities to look at new opportunities and methods for providing services to their communities. Applicants eligible for this FOA are the same as those identified for SEDS. (Legal authority: Section 803(a) of NAPA, as amended.)

3. SEDS—Assets for Independence (AFI)

ANA is partnering with the Office of Community Services' (OCS) AFI program to support Tribes and Native organizations in planning and implementing comprehensive asset-building projects. ANA and OCS are providing this support through funding opportunities, training, and technical assistance. The AFI program is an assets-based approach for assisting low-income families out of poverty. The program assists individuals and families to save earned income in special-purpose, matched savings accounts called Individual Development Accounts (IDAs). Every dollar in savings deposited into an IDA by a participant will be combined with non-participant funds (from \$1 to \$8 combined Federal (AFI) and non-Federal funds). The program promotes savings and enables a participant to acquire a lasting asset. An AFI participant can use the IDA savings to achieve any of three objectives: acquire a first home, capitalize a small business, or enroll in postsecondary education or training.

ANA, through its SEDS program, and OCS, through its AFI program, are offering Tribes and Native organizations a joint funding initiative. The purpose of the joint SEDS—AFI funding is to support Tribes and Native organizations
