Approval and Promulgation of Implementation Plans; Georgia: Stage II Vapor Recovery

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Georgia State Implementation Plan (SIP), submitted by the Georgia Environmental Protection Division on September 26, 2006, with a clarifying revision submitted on November 6, 2006. The September 26, 2006, submittal includes multiple modifications to Georgia's Air Quality Rules found at Chapter 391-3-1. Previously, EPA took action on the majority of the September 26, 2006, submittal in an action published in the **Federal Register** on February 9, 2010. In today's action, EPA is addressing only the portion of the September 26, 2006, submittal that relates to revisions to Georgia's Stage II gasoline vapor recovery rule at 391-3-1-.02(zz). These revisions are part of Georgia's strategy to meet the national ambient air quality standards. EPA has preliminarily determined that these revisions are consistent with the December 12, 2006, EPA memorandum from Stephen D. Page entitled *Removal of Stage II Vapor Recovery in Situations Where Widespread Use of Onboard Refueling Vapor Recovery is Demonstrated*. EPA is proposing to approve Georgia's SIP revisions pursuant to section 110 of the Clean Air Act.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification to the Secretary of Agriculture.

As described in the Agency's semi-annual Regulatory Agenda, the draft proposed rule intends to clarify, restructure, and add specificity to existing labeling regulations for the export of unregistered pesticide products and devices. EPA is also considering a minor new requirement for the labeling of unregistered pesticide products and devices shipped between establishments operated by the same producer to ensure that they are clearly marked as unregistered products intended for export in order to prevent them from inadvertently entering the U.S. market.
