A copy of the comments should also be sent to the Federal Energy Regulatory Commission and should refer to Docket No. IC10–555–001. Comments may be filed either electronically or in paper format. Those persons filing electronically do not need to make a paper filing. Documents filed electronically via the Internet must be prepared in an acceptable filing format and in compliance with the Federal Energy Regulatory Commission submission guidelines. Complete filing instructions and acceptable filing formats are available at [http://www.ferc.gov/help/submission-guide.asp](http://www.ferc.gov/help/submission-guide.asp), To file the document electronically, access the Commission’s Web site and click on Documents & Filing, E-Filing ([http://www.ferc.gov/docs-filing/efiling.asp](http://www.ferc.gov/docs-filing/efiling.asp)), and then follow the instructions for each screen. First time users will have to establish a user name and password. The Commission will send an automatic acknowledgement to the sender’s e-mail address upon receipt of comments.

For paper filings, the comments should be submitted to the Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street, NE., Washington, DC 20426, and should refer to Docket No. IC10–555–001.

Users interested in receiving automatic notification of activity in FERC Docket Number IC10–555 may do so through eSubscription at [http://www.ferc.gov/docs-filing/esubscription.asp](http://www.ferc.gov/docs-filing/esubscription.asp). All comments may be viewed, printed or downloaded remotely via the Internet through FERC’s homepage using the “eLibrary” link. For user assistance, contact [ferconlinesupport@ferc.gov](mailto:ferconlinesupport@ferc.gov) or toll-free at (866) 208–3676, or for TTY, contact (202) 502–8659.

FOR FURTHER INFORMATION CONTACT: Ellen Brown may be reached by e-mail at [DataClearance@FERC.gov](mailto:DataClearance@FERC.gov), by telephone at (202) 502–8663, and by fax at (202) 273–0873.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC–555, “Records Retention Requirements” (OMB No. 1902–0098), is used by the Commission to carry out its responsibilities in implementing the statutory provisions of sections 301, 304 and 309 of the Federal Power Act (FPA) (16 U.S.C. 825, 825c and 825h), sections 8, 10 and 16 of the Natural Gas Act (NGA) (15 U.S.C. 717–717w), and section 20 of the Interstate Commerce Act (ICA, 49 U.S.C. 20).

The regulations for preservation of records establish retention periods, necessary guidelines, and requirements for retention of applicable records for the regulated public utilities, natural gas and oil pipeline companies subject to the Commission’s jurisdiction. These records will be used by the regulated companies as the basis for their required rate filings and reports for the Commission. In addition, the records will be used by the Commission’s audit staff during compliance reviews, by enforcement staff during investigations, and for special analyses as deemed necessary by the Commission.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the record keeping requirements.

Burden Statement: In order to obtain a more accurate burden figure, Commission staff asked a small number of FERC–555 respondents to estimate the burden imposed by this data collection. The results show that the record retention requirements under FERC–555 were underestimated in the previous renewal of this information collection. The following table portrays the updated burden estimate based on industry responses:

<table>
<thead>
<tr>
<th>FERC data collection</th>
<th>Number of respondents annually</th>
<th>Average Number of responses per respondent</th>
<th>Average burden hours per response</th>
<th>Total annual burden hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FERC–555</td>
<td>475</td>
<td>1</td>
<td>4,968</td>
<td>2,359,800</td>
</tr>
</tbody>
</table>

The estimated total annual cost burden to respondents includes labor costs associated with record retention ($65,597,925 or $152,423 per company) and both electronic and non-electronic record storage costs ($72,400,925 or $72,638,045 respectively. Finally, the estimate for the number of respondents has decreased from 515 to 475.

Record retention burden differs greatly by the size of the company and this figure captures an average across all jurisdictional companies. Thus a small company may require fewer than 1,000 hours per year to comply while a large company may require more than 10,000 hours per year to comply.

[Project No. 13858–000]

Central Oregon Irrigation District;
Notice of Competing Preliminary Permit Application Accepted for Filing and Soliciting Comments and Interventions

November 22, 2010.

On October 6, 2010, Central Oregon Irrigation District filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Cline Falls Hydroelectric Project located at the Cline Falls diversion dam on the Deschutes River in Deschutes County, Oregon. The sole purpose of the preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

The proposed project would consist of the following existing and proposed facilities: (1) The existing 300-foot-long, 5-foot-high diversion structure; (2) a pool upstream of the diversion structure with a storage capacity of approximately 2-acre-feet; (3) a wooded radial gate for diversion control; (4) a 400-foot-long lined canal and flume channel; (5) a 45-foot-long, 8-foot-diameter steel penstock; (6) a powerhouse containing one 750-kW turbine/generator; (7) a tailrace leading from the rock chamber located under the turbine and a short tailrace to the river; (8) and appurtenant facilities.

The proposed project would have an average annual generation of 2 gigawatt-hours.

Applicant Contact: Steven C. Johnson, 1055 SW., Lake Court, Redmond, OR 97756; phone: (541) 548–6047, e-mail: steve@coid.org.

FERC Contact: Kelly Wolcott (202) 502–6480

Competing Applications: This application competes with Project No. 13868–000 filed March 23, 2010.

Deadline for filing comments and motions to intervene: 60 days from the issuance of this notice. Comments and motions to intervene may be filed electronically via the Internet. See 18 CFR 385.2001(a)(i)(iii) and the instructions on the Commission’s Web site [http://www.ferc.gov/docs-filing/ferconline.asp] under the “eFiling” link. For a simpler method of submitting text only comments, click on “eComment.”

For assistance, please contact FERC Online Support at FERConlineSupport@ferc.gov; call toll-free at (866) 208–3676; or, for TTY, contact (202) 502–8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and eight copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the “eLibrary” link of Commission’s Web site at http://www.ferc.gov/docs-filing/elibrary.asp. Enter the docket number (P–13858) in the docket number field to access the document. For assistance, contact FERC Online Support.

Kimberly D. Bose,
Secretary.
