

New 1.4-acre Alice Griffith Neighborhood Park.
Percent Reduction: 27 percent.

Alternative D, No Project Alternative

No changes to the existing conditions. The proposed redevelopment is consistent with requirements for a mixed-use, mixed-income housing project. The project site currently contains 256 residential units, a community center, a boys and girls club and a pump house. The residential units are in primarily two story structures. Much of the existing infrastructure would be demolished, and replaced, also in phases. Additional community space will be developed to provide a range of community uses (e.g., social services space, educational facilities, library, neighborhood services, commercial uses).

B. Need for the EIS

The proposed project may constitute an action significantly affecting the quality of the human environment and an EIS will be prepared on this project by the City and County of San Francisco's MOH in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Responses to this notice will be used to: (1) Determine significant environmental issues, (2) identify data that the EIS should address, and (3) identify agencies and other parties that will participate in the EIS process and the basis for their involvement.

C. Scoping

A public EIS scoping meeting will be held on a date within the comment period and after at least 15 days of publishing this Notice of Intent. Notices of the scoping meeting will be mailed when the date has been determined. The EIS scoping meeting will provide an opportunity for the public to learn more about the project and provide input to the environmental process. At the meeting, the public will be able to view graphics illustrating preliminary planning work and talk with MOH staff, and members of the consultant team providing technical analysis to the project. Translators will be available. Written comments and testimony concerning the scope of the EIS will be accepted at this meeting.

D. EIS Issues

The MOH has preliminarily identified the following environmental elements for discussion in the EIS: Earth (geology, soils, topography); air quality; water (surface water movement/quantity, runoff/absorption, flooding, groundwater movement/quantity/

quality); plants and animals; energy use; noise; land use and socioeconomic factors (land use patterns, relationship to plans/policies and regulations; population; housing and relocations); environmental justice (disproportionately high and adverse effects on minority and low income populations); historic and cultural resources; aesthetics, light and glare; parks and recreation; public services and utilities (fire, police, parks/recreation, communications, water, stormwater, sewer, solid waste); and transportation (transportation systems, parking, movement/circulation, traffic hazards).

Questions may be directed to the individual named in this notice under the heading **FOR FURTHER INFORMATION CONTACT**.
