when using FTA funds to purchase rolling stock. Grantees are also required to keep a copy of the certification in their files. FTA implements this requirement in 49 CFR part 663 by describing the certificates that must be submitted by each bidder to assure compliance with the Buy America contract specification and vehicle safety requirements for rolling stock. The information collected on the certification forms is necessary for FTA grantees to meet the requirements of 49 U.S.C. 5323(m).

Estimated Total Annual Burden: 2,786 hours.

**ADDRESSES:** All written comments must refer to the docket number that appears at the top of this document and be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725—17th Street, NW., Washington, DC 20503, Attention: FTA Desk Officer.

Comments are Invited On: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Ann M. Linnertz,
Associate Administrator for Administration.

Federal Transit Administration

[FTA Docket No. 2010–0044]

**Notice of Request for the Extension of a Currently Approved Information Collection**

**AGENCY:** Federal Transit Administration, DOT.

**ACTION:** Notice of Request for Comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the Federal Transit Administration (FTA) to request the Office of Management and Budget (OMB) to approve the following information collection:

Survey of FTA Stakeholders.

DATING: Comments must be submitted before February 7, 2011.

**ADDRESS:** To ensure that your comments are not entered more than once into the docket, submit comments identified by the docket number by only one of the following methods:

4. Hand Delivery: U.S. Department of Transportation, 1200 New Jersey Avenue, SE., Docket Operations, M–30, West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Instructions: You must include the agency name and docket number for this notice at the beginning of your comments. Submit two copies of your comments if you submit them by mail. For confirmation that FTA has received your comments, include a self-addressed stamped postcard. Note that all comments received, including any personal information, will be posted and will be available to Internet users, without change, to http://www.regulations.gov. You may review DOT’s complete Privacy Act Statement in the Federal Register published April 11, 2000, (65 FR 19477), or you may visit http://www.regulations.gov.

Docket: For access to the docket to read background documents and comments received, go to http://www.regulations.gov at any time. Background documents and comments received may also be viewed at the U.S. Department of Transportation, 1200 New Jersey Avenue, SE., Docket Operations, M–30, West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Rick Krochalis, FTA Region 10 Office, (206) 220–7954, or e-mail: Rick.Krochalis@dot.gov.

**SUPPLEMENTARY INFORMATION:** Interested parties are invited to send comments regarding any aspect of this information collection, including: (1) The necessity and utility of the information collection for the proper performance of the functions of the FTA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

Title: Survey of FTA Stakeholders.

OMB Number: 2132–0564.

Background: Executive Order 12862, “Setting Customer Service Standards,” requires FTA to identify its customers and determine what they think about FTA’s service. The survey covered in this request will provide FTA with a means to gather data directly from its stakeholders. The information obtained from the survey will be used to assess how FTA’s services are perceived by stakeholders, determine opportunities for improvement and establish goals to measure results. The survey will be limited to data collections that solicit voluntary opinions and will not involve information that is required by regulations.

Respondents: State and local government, public and private transit operators, Metropolitan Planning Organizations (MPOs), transit constituents, and other stakeholders.

**Estimated Annual Burden on Respondents:** 1 hour for each of the 1,200 respondents.

**Estimated Total Annual Burden:** 1,200 hours.

**Frequency:** Every two years.

Issued: December 2, 2010.

Ann M. Linnertz,
Associate Administrator for Administration.

National Highway Traffic Safety Administration

[Docket No. NHTSA–2010–0160; Notice 1]

Volvo Trucks North America and Mack Trucks, Inc., Receipt of Petition for Decision of Inconsequential Noncompliance

North American Trucks on behalf of Volvo Trucks North America (VTN) and
Mack Trucks, Inc. (MTI)¹ has determined that certain 2008 through 2010 Volvo VHD model, 2008 and 2009 Volvo VHL model, 2008 and 2009 Volvo VNL model, 2008 Volvo VT model, and 2008 through 2010 Mack CHU, CXU and GU model trucks that were built with certain Meritor WABCO ABS Modulator valves failed to meet the requirements of paragraph S5.3.4.1(a) of Federal Motor Vehicle Safety Standard (FMVSS) No. 121, Air Brake Systems. VTN and MTI filed appropriate reports pursuant to 49 CFR Part 573, Defect and Noncompliance Responsibility and Reports; the original submission is dated April 10, 2010, and a corrected version is dated May 28, 2010.

Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR Part 556), VTN and MTI have petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of the VTN and MTI petition is published under 49 U.S.C. 30118 and 30120, respectively, to notify owners, dealers, and manufacturers of the defect in the motor vehicle models, makes, and types described in the petition. Comments must be written in the English language, be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. All comments received will be posted without change to http://www.regulations.gov, including any personal information provided.

Documents submitted to a docket may be viewed by anyone at the address and times given above. The documents may also be viewed on the Internet at http://www.regulations.gov by following the online instructions for accessing the dockets. DOT’s complete Privacy Act Statement is available for review in the Federal Register published on April 11, 2000 (65 FR 19477–78).

The petition, supporting materials, and all comments received before the close of business on the closing date indicated below will be filed and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice of the decision will be published in the Federal Register pursuant to the authority indicated below.

Comment closing date: January 7, 2011.

¹ Volvo Trucks North America and Mack Trucks, Inc., are both United States corporations that import and manufacture motor vehicles.

Committee Decisions and Consumer Reports; Defect and

Fully include a trailer converter dolly, shall meet the above release time requirement with its control line input coupling connected to the test rig shown in Figure 1.

(b) For vehicles designed to tow another vehicle equipped with air brakes, the pressure in the 50-cubic-inch test reservoir referred to in S5.3.4.1(a) shall, when measured from the first movement of the service brake control, fall to 5 psi in not more than 0.75 seconds in the case of trucks and buses, 1.10 seconds in the case of trailer converter dollies, and 1.00 seconds in the case of trailers other than trailer converter dollies.

VTN and MTI state that the noncompliance is that the quick release service brake function may not activate properly during FMVSS No. 121 brake pressure release certification testing due to an internal component variation in certain Meritor WABCO ABS modulator valves installed on the subject vehicles. As a result, certain vehicles may not comply with the FMVSS No. 121 brake pressure release time requirements specified in S5.3.4.1(a). However, VTN and MTI indicate that they do not believe that this issue has any effect on the ABS performance of the brake system.

VTN and MTI also state that they have taken steps to correct the noncompliance in future production.

VTN and MTI rely on the test report submitted with the petition to support their contention that the described FMVSS No. 121 noncompliance is inconsequential to motor vehicle safety.

In summary, VTN and MTI believe that their petition, to exempt them from the recall noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120, should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance.

Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket and notice number cited at the beginning of this notice and be submitted by any of the following methods:

a. By mail addressed to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE, Washington, DC 20590.

b. By hand delivery to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE, Washington, DC 20590. The Docket Section is open on weekdays from 10 am to 5 pm except Federal Holidays.

Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to http://www.regulations.gov, including any personal information provided.

In summary, VTN and MTI believe that this issue has any effect on the ABS performance of the brake system.

VTN and MTI state that the quick release service brake function may not activate properly during FMVSS No. 121 brake pressure release certification testing due to an internal component variation in certain Meritor WABCO ABS modulator valves installed on the subject vehicles. As a result, certain vehicles may not comply with the FMVSS No. 121 brake pressure release time requirements specified in S5.3.4.1(a).
