SUPPLEMENTARY INFORMATION:

I. Background

The proposed new system of records will be used by NIFA staff to: (1) Identify and select applicants for the Veterinary Medicine Loan Repayment Program (VMLRP); (2) monitor loan repayment activities, such as payment tracking, deferment of service obligation, and default; and (3) to assist NIFA officials in the collection of overdue debts owed under the VMLRP. Records may be transferred to Administrative Billings and Collections, National Finance Center, Office of the Chief Financial Officer, USDA, for debt collection purposes when NIFA officials are unable to collect overdue debts owed under the VMLRP.

The amount of information recorded on each individual will be only that which is necessary to accomplish the needs of the program. Each record will be established initially from an application form submitted to the VMLRP by the applicant. The National Veterinary Medical Service Act (NVMSA) added section 1415A to the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (NARETPA), establishing a new Veterinary Medicine Loan Repayment Program (7 U.S.C. 3151a) which authorizes the Secretary of Agriculture to carry out a program of entering into agreements with veterinarians under which they agree to provide veterinary services in veterinarian shortage situations.

Section 7105 of the Food, Conservation, and Energy Act of 2008, Public Law 110–246, (FCEA) amended section 1415A to revise the determination of veterinarian shortage situations to consider (1) geographical areas that the Secretary determines have a shortage of veterinarians; and (2) areas...
of veterinary practice that the Secretary determines have a shortage of veterinarians, such as food animal medicine, public health, epidemiology, and food safety. This section also added that priority should be given to agreements with veterinarians for the practice of food animal medicine in veterinarian shortage situations.

NARETPA section 1415A requires the Secretary, when determining the amount of repayment for a year of service by a veterinarian, to consider the ability of USDA to maximize the number of agreements from the amounts appropriated and to provide an incentive to serve in veterinary service shortage areas with the greatest need. This section also provides that loan repayments may consist of payments of the principal and interest on government and commercial loans received by the individual for the attendance of the individual at an accredited college of veterinary medicine resulting in a degree of Doctor of Veterinary Medicine or the equivalent.

The Internal Revenue Code at 26 U.S.C. 6109 requires the applicant’s Social Security number for the receipt of loan repayment funds under the VMLRP. The Federal Debt Collection Procedures Act of 1990, Public Law 101–647 (28 U.S.C. 3201) requires that an individual who has a judgment lien against his/her property for a debt to the United States shall not be eligible to receive funds directly from the Federal Government in any program, except funds to which the debtor is entitled as a beneficiary, until the judgment is paid in full or otherwise satisfied. Thus, individuals applying to the VMLRP are required to disclose in their applications whether they have a judgment lien against them arising from a debt to the United States.

The records in this system will be maintained in a secure manner compatible with their content and use. NIFA staff will be required to adhere to the provisions of the Privacy Act and the USDA Privacy Act Regulations. The System Manager will control access to the data. Only authorized users whose official duties require the use of such information will have regular access to the records in this system. Authorized users are USDA employees and contractors responsible for implementing the VMLRP. The records will be stored initially in file folders. At a later stage, records will be stored on computer tape and discs. Prior to electronic storage, a Privacy Impact Assessment will be conducted. Manual and computerized records will be maintained in accordance with USDA Departmental Regulation 3080–001, Records Management; REE P&P 251.8, Records Management; REE P&P 251.8M, Records Management (Manual); REE P&P 116.0, Freedom of Information Act and Privacy Act Guidelines; and the National Institute of Standards and Technology Federal Information Processing Standards (FIPS Pub. 41 and FIPS Pub. 31).

Data stored in computers will be accessed through the use of keywords known only to authorized users. The room where physical records (files and folders) are stored is controlled by on-site personnel and will be locked whenever the room is not in use, even during regular business hours. Security guards perform random checks on the physical security of the data after hours, including weekends and holidays. Consistent with USDA’s information sharing mission, information stored in the Veterinary Medicine Loan Repayment Program system of records may be shared with other USDA components, as well as appropriate Federal, State, local, Tribal, foreign, or international government agencies. This sharing will only take place after USDA determines that the receiving component or agency has a need to know the information to carry out national security, law enforcement, immigration, intelligence, or other functions consistent with the routine uses set forth in this system of records notice.

In accordance with the Privacy Act of 1974, the USDA proposes to establish a new USDA system of records notice titled Veterinary Medicine Loan Repayment Program, USDA/NIFA–1. This newly established system will be included in the USDA’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals’ records. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents.

The Privacy Act requires each agency to publish in the Federal Register a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency recordkeeping practices transparent, to notify individuals regarding the uses to which their records are put, and to assist individuals to more easily find such files within the agency.

Below is the description of the Veterinary Medicine Loan Repayment Program system of records, USDA/NIFA–1.

In accordance with 5 U.S.C. 552a(r), USDA has provided a report of this system of records to the Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget; Chairman, Committee on Homeland Security and Governmental Affairs, United States Senate; and Chairman, Committee on Oversight and Government Reform, U.S. House of Representatives.

Signed at Washington, DC on December 6, 2010.

Thomas J. Vilsack,
Secretary of Agriculture.
