

threshold that causes harm to marshes, and substantially restore the flow patterns associated with a healthy ridge and slough landscape in Northeast Shark River Slough.

• *Common to all action alternatives:* The remaining highway embankments along stretches of the road that are not bridged would be reconstructed to raise the crown elevation to 12.3 feet, the minimum required based on the design high water of 9.7 feet and the roadway cross-section geometry.

*Preferred Alternative:* Alternative 6e was determined to be the preferred alternative (and environmentally preferable alternative) by the NPS and the U.S. Department of the Interior.

**Authority:** The authority for publishing this notice is 40 CFR 1506.6.

**FOR FURTHER INFORMATION CONTACT:** Contact Everglades National Park at the address and telephone number shown above.

The responsible official for this Final EIS is the Regional Director, Southeast Region, NPS, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303.

Dated: December 2, 2010.

#### Long Walk National Historic Trail Feasibility Study, Abbreviated Final Environmental Impact Statement, National Trails Intermountain Region, NM

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice of Availability of the Abbreviated Final Environmental Impact Statement for the Long Walk National Historic Trail Feasibility Study.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, (NEPA) 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of the Abbreviated Final Environmental Impact Statement for the Long Walk National Historic Trail Feasibility Study, National Trails Intermountain Region, New Mexico.

Four alternatives and their respective environmental consequences were presented in the feasibility study. Under alternative A, the no-action alternative, current practices and policies would

continue. A national historic trail would not be designated, and interpretation and protection of Long Walk-related events and resources would not be coordinated. Under alternative B, Congress would designate two national historic trails (dual designations) to emphasize the unique removal experiences of the Mescalero Apache and Navajo tribes within the contextual history. An auto tour route would be established. Interpretation and education would emphasize the distinctive tribal and individual removal histories. Under alternative C (Environmentally Preferable Alternative) one national historic trail would be designated, emphasizing the removal experiences common to both tribes. An auto tour route would be established. Interpretation and education would emphasize overviews of the Long Walk events. Under alternatives B and C, the Secretary of the Interior would administer the trail through partnerships, primarily with the Mescalero Apache Tribe and Navajo Nation. Under alternative D, Congress would provide a grant program to the tribes focusing on interpretation and education projects and resource protection on tribal lands. All decisions about strategy, level of protection, etc., would be made by the tribes. A national historic trail would not be designated. No other alternatives were considered during the course of the study.

The feasibility study determined the Long Walk routes fully meet the criteria for designation as national historic trails. The overall nature of public comments during the review period for the draft study supported designation.

Neither the draft feasibility study nor the abbreviated final environmental impact statement identified a preferred alternative. The National Park Service has subsequently identified Alternative A, the no-action alternative, to be the preferred alternative after requesting and considering comments on the draft plan from the Navajo Nation.

**DATES:** The National Park Service will execute a Record of Decision (ROD) no sooner than 30 days following publication by the Environmental Protection Agency of the Notice of Availability of the Abbreviated Final Environmental Impact Statement.

**ADDRESSES:** Information will be available for public inspection online at <http://parkplanning.nps.gov/ntir>, in the office of the Superintendent, Aaron Mahr, National Trails Intermountain Region, National Park Service, PO Box 728, Santa Fe, New Mexico 87504-0728; (505) 988-6098.

**FOR FURTHER INFORMATION CONTACT:** Sharon A. Brown, National Trails Intermountain Region, National Park Service, PO Box 728, Santa Fe, New Mexico 87504-0728; (505) 988-6717.

Dated: November 26, 2010.

#### Notice of Intent To Repatriate Cultural Items: University of Pennsylvania Museum of Archaeology and Anthropology, Philadelphia, PA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items in the possession of the University of Pennsylvania Museum of Archaeology and Anthropology, Philadelphia, PA, that meet the definitions of sacred objects and/or objects of cultural patrimony under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural items. The National Park Service is not responsible for the determinations in this notice.

The eight Tlingit objects are one wooden box drum (catalogue number NA6828); one hide robe (catalogue number NA6829); two carved wooden masks (catalogue numbers NA6831 and NA6832); one carved wooden headdress (catalogue number NA6835); one head cover (catalogue number NA6836); one carved wooden rattle (catalogue number NA6845); and one carved wooden pipe (catalogue number NA6862).

The first cultural item is a drum (NA6828) made of two pieces of cedar wood, called Old-Man-of-War Box Drum. One narrow side is carved to represent the "old-man-of-war" and the opposing side is open; the broad sides are painted in geometric figures in red and black. The drum measures approximately 65.0 cm long, 32.0 cm wide and 85.0 cm high.
