

be issued as part of the letter to the licensee approving the exemption to the regulation, if granted.

#### *Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed actions, the NRC staff considered denial of the proposed action (*i.e.*, the “no-action” alternative). Denial of the exemption request would result in no change in current environmental impacts. If the proposed action was denied, the licensee would have to comply with the existing implementation deadline of December 15, 2010, for one remaining item of the three requirements, as granted on February 24, 2010. The environmental impacts of the proposed exemption and the “no-action” alternative are similar.

#### *Alternative Use of Resources*

The action does not involve the use of any different resources than those considered in the Final Environmental Statement for HNP, Unit 1, NUREG-0972, dated October 31, 1983, as supplemented through the “Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding Shearon Harris Nuclear Power Plant, Unit 1—Final Report (NUREG-1437, Supplement 33).”

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on December 2, 2010, the NRC staff consulted with the North Carolina State official, *lee.cox@ncdenr.gov* of the North Carolina Department of Environment and Natural Resources, regarding the environmental impact of the proposed action. The State official had no comments.

#### **Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee’s letter dated September 20, 2010. Portions of the September 20, 2010, submittal contain security-related information and, accordingly, a redacted version of this letter is available for public review in the Agencywide Documents Access and Management System (ADAMS), Accession No. ML102650191. This document may be examined, and/or copied for a fee, at the NRC’s Public Document Room (PDR), located at One White Flint North, Public File Area O-

**[Docket Nos. 50-247 and 50-286; NRC-2008-0672]**

### **Entergy Nuclear Operations, Inc.; Indian Point Nuclear Generating Unit Nos. 2 and 3; Notice of Availability of the Final Supplement 38 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants**

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) has published a final plant-specific supplement to the *Generic Environmental Impact Statement for License Renewal of Nuclear Plants* (GEIS), NUREG-1437, regarding the renewal of Operating Licenses DPR-26 and DPR-64 for an additional 20 years of operation for Indian Point Nuclear Generating Unit Nos. 2 and 3 (IP2 and IP3). The IP2 and IP3 site is located approximately 24 miles north of New York, NY. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

As discussed in Section 9.3 of the final supplement, the staff determined that the adverse environmental impacts of license renewal for IP2 and IP3 are not so great that preserving the option of license renewal for energy-planning decision makers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Entergy Nuclear Operations, Inc.; (3) consultation with Federal, State, local,

and tribal agencies; (4) the staff’s own independent review; and (5) consideration of public comments received during the scoping process and on the draft Supplemental Environmental Impact Statement.

The final Supplement 38 to the GEIS is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, Public File Area O-1F21, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC’s Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. The accession numbers for the final Supplement 38 to the GEIS are ML103350405 (Volume 1), ML103350438, ML103360209, ML103360212 (Volume 2), and ML103350442 (Volume 3). Persons who do not have access to ADAMS or who encounter problems while accessing the documents located in ADAMS, should contact the NRC’s PDR reference staff by telephone at (800) 397-4209 or (301) 415-4737, or by e-mail at [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). In addition, the White Plains Public Library (White Plains, NY), Hendrick Hudson Free Library (Montrose, NY), and the Field Library (Peekskill, NY), have all agreed to make the final supplement available for public inspection.
